REGISTERED AT THE GENERAL POST OFFICE AS A NEWSPAPER

1937. SATURDAY, AUGUST 14, 1937.

Price 2d.

DUNGARVAN URBAN COUNCIL.

Mr. M. Morrissey, T.D., Chairman, presided at the weekly meeting of the above on Friday. Also present—Messrs. S. Hayes, J. Maguire, J. F. Foley, T. McCarthy, Vice-Chairman; P. Byrne and J. Dahill.

Paysheet
A paysheet for £22 10s. 10d. was submitted and passed.

Changing of Lights
The following letter was read: "I notice the E.S.B. men are changing the light in front of my house and evidently placing it in a position detrimental to me. I wrote your Board some time ago asking for consideration of this matter, as it affected my place and felt they would in all fairness to me have the matter fully gone into before taking down the light from its present position. The Board could easily have satisfied all concerned by placing the light on the corner of the Town Hall at my side instead of placing it down so far. Will you kindly look into the matter and very much oblige M. J. Keane, Friary street."

Chairman—If I remember rightly at the time Mr. Keane made a complaint it was a temporary light. We, at the time, went very fully into the matter, and it was suggested by someone that if we put the light where Mr. Keane wanted it, it would throw the Friary Church gate in darkness and as there is a step there a light is very necessary.
Mr. Dahill said that while personally he would like to oblige the writer they must remember it is a public light for the purpose of lighting the street and not private houses.
No action was taken on the letter.

Housing Contract
A letter from Mr. Flynn, Millstreet, Co. Cork, Contractor for the erection of the 339 houses under the Housing of the Working Classes Act, was read stating that owing to the increasing cost of materials he is not prepared to carry out the contract.

The Department wrote acknowledging receipt of the Council's letter with enclosed letter from Mr. Flynn, Contractor, intimating that he is not prepared to carry out his contract for the erection of 339 houses. The letter stated that the only satisfactory course open to the Council would appear to be to re-advertise for tenders.

Mr. McCarthy—It is a wonder he did not tell us that at first. How much money has a person tending to lodge with his tender?
Clerk—Six guineas.
Mr. McCarthy—It is too small altogether.

Mr. Dahill—It should be £20.
Mr. McCarthy—It should be £100. That man could easily have told us what he tells us now 6 or 7 weeks ago.
Chairman—This housing scheme is very unsatisfactory, and it is not in any way the fault of the Council. He was very disappointed when he saw this letter from the Contractor, and he took it on himself to instruct the Clerk to send a copy to the Department with a view to having the matter speeded up. This is the second time the Council have been let down by Contractors. Now there is a letter from the Department saying the best course would be to re-advertise, but there is nothing to prevent the same thing happening a third time. Mr. McCarthy raised the question of a higher deposit, that may be alright and again it may frighten off some contractors.

Mr. McCarthy—If the contractor is honest, the amount of the deposit will not frighten him off because he knows he will have his money back. This thing has happened twice, the first contractor was honest enough because he came after a week and said he was not prepared to carry out the contract, but this contractor has held us up 7 or 8 weeks. He suggested asking the Department for sanction to erect the houses by direct labour, as the same thing may happen again when contracts are taken.

Chairman—I don't know what the majority of the Council think of direct labour but personally in a scheme such as this he would be opposed to it.

Mr. McCarthy—If that man did not tender the houses would be half up now.
Chairman—The first thing to consider is whether we will re-advertise. We have twice got to the stage of being ready to start and can't get beyond that.

Mr. Dahill—There is a missing link somewhere.
After some further discussion, it was decided to re-advertise for contractors, tenders to be considered on August 27th.

The Clerk was instructed to get in touch with the architect re increased deposits.
Sympathy
On the proposition of Mr. Foley, seconded by the Chairman a vote of sympathy was passed to Mr. Ranson and family on the death of Mrs. Ranson.
A similar vote was, on the proposition of Mr. McCarthy, seconded by Mr. Hayes, passed to Mrs. O'Connor, Davis street, on the death of her daughter.

Resurfacing of Roads
Mr. Bowen wrote—1 note from the Press that your Council has let contracts

WATERFORD CO. BOARD OF PUBLIC HEALTH.

Mr. Commissioner Moynihan sat in the Secretary's office, Co. Home, Dungarvan, on Wednesday to transact business under the Board of Public Health.

Tenders
Eggs—Messrs. Dee Bros., 1,01d. per dozen from August 11th to September 8th. Accepted. M. J. O'Connor and Sons, tendered at 1/3.
Sugar—M. J. Casey and Co., 26/3 per cwt. Accepted. R. A. Mangan and Co., 26/3 per cwt. was the only other tender received.

Tramway Carnival Committee
The Committee of the above which will be held from 22nd to 30th August, wrote stating they would be obliged to the Board if the Board would employ 3 extra men and a horse and cart for the week preceding and the Carnival week itself, as a record number of visitors are expected.

It was decided to employ one horse and cart with driver and one extra man.

Water Supply
Dr. J. J. Dennehy, acting Co. M.O.H. reported that 5 cottages living on a quarter mile stretch of road running north of Killossanty school have no water suitable for drinking purposes within one mile. The five cottages house 31 inhabitants, as the Killossanty school with a roll of 100 is situated in this area it has no suitable water supply and requires attention. There seems to be a plentiful supply of water in the area but none protected from pollution.

The matter was referred to the Engineer for report.

Cottages
The following cottages were up for letting and as applicants were not considered very badly of as regards present living accommodation the order was made to re-advertise again: Cobraly, Kealfoun, Newtown, Monodha, Loskeran, Moneygorm, Cooldoody.

Cottage Repairs
Mr. Bowen, Co. Surveyor, wrote stating that in his opinion some better system of repairs and maintenance is urgently necessary. The number of cottages in the county is 1,938. These have been built to various plans at various dates for the past 50 years, while some are older houses taken over by the Board of Guardians. Many of the houses were well built but many also were not well built, and quite a number were very badly built and this applies to the houses erected in every period. No system of maintenance is in force and no regular scheme of repairs.

To put the matter on a more business like footing I recommend that the present piece-meal way of doing repairs be scrapped and that a general detailed inspection of all houses be made, with a brief report and estimate of cost of repairs. When this is ready arrangements should be made to have these repairs carried out by contract, each involving a number of houses in the same locality. The necessary clerical and professional assistance for this work should be provided. When all houses have been dealt with, there should be an annual inspection and in addition arrangements should be made to deal with storm damages as they occur. This will lead to economy and will have the effect of preserving the Board's property.

Judging from reports that have reached me, the cost of this is likely to be considerable, but I see no alternative and we must make up for past neglect.

Cottages built under recent schemes are now all due for external painting and this should not be deferred beyond next spring. If these suggestions are agreed to, no time should be lost about getting the inspections completed as there is likely to be considerable delay in getting contracts let and the work in progress.

It was ordered that the County Surveyor be instructed to make arrangements for inspection and prepare complete report on repairs required as early as possible.

for laying of new sewers and water mains in the Urban Area.

I shall be glad to know if any of these are to be laid in streets that are maintained by the County Council and if so to have a plan and particulars of what is proposed to be done, and what arrangements have been made for the re-surfacing of the roads interfered with if any. No application has been made to me for permission to open any roads.

The letter was referred to the B.S. The Clerk stated that the re-surfacing is a matter for the contractor.

A Weighbridge
Messrs. Avey's, Cork, wrote giving quotations for weighbridges of a 20-ton capacity which averaged £200 to £280.

After some discussion the Clerk stated he understood that by installing a weighbridge of a 20-ton capacity there is a possibility of getting a grant.
Chairman—Would it be possible to find out about the grant at first.
The Clerk said he thought so, and the matter was left in his hands.

Monthly Report of Co. Medical Officer.

Office of Health reported for July. The monthly report of Dr. Michael O'Farrell, County Medical Officer of Health was as follows:

Infectious Diseases—The following Infectious Diseases were notified to this Office during the month:—Scarlatina 2; Erysipelas 1; Diphtheria, 5.

The two Scarlatina Notifications were received from the Portlaw Dispensary District and the five Diphtheria Notifications from the Waterford No. 2 Dispensary District.

Fever Hospitals—In all there were 20 admissions to County Fever Hospitals during the month and 6 discharged therefrom, leaving 8 undergoing treatment at the end of the month.

Notification of Births—Births notified during the month numbered 58, including one stillbirth. Four "Records of sending for Medical Assistance" were received.

Tuberculosis—During the month there were 283 attendances of 200 patients at T.B. Clinics, which attendances were made up by 69 patients, 10 insured and 59 uninsured. Twelve Domiciliary cases, 2 insured and 10 uninsured, were attended by the T.B. Officer and 11, insured, by other doctors. Fifteen patients, 3 insured and 12 uninsured, are under treatment in County Institutions and one insured patient in a Sanatorium.

Four contacts were examined during the month, two reports were made on the home conditions of patients, two premises were notified for disinfection, and five sputa or other specimens were examined.

Jubilee Nurses paid 259 visits to 60 patients, and in addition made the following report:—

Number of Dressings—3. Number of Premises requiring disinfection notified—2.

The T.B. Officer made the following recommendations during the month:—Unlimited Domiciliary treatment in one case, 12 weeks extension of Domiciliary treatment in four cases, treatment in Dr. Steevens' Hospital in one case.

Maternity and Child Welfare—Jubilee Nurses, in their districts throughout the County, attended two clinics. The attendances were:—Mothers 15, Infants 7; Children 10; Expectant Mothers 27; Mothers 149; Babies under 1 year; children under 5, 538.

General Sanitation—During the month Sanitary Sub-Officers, throughout the County, carried out 535 inspections of dwelling houses.

Milk and Dairies Act, 1935—Reports on the premises of 29 applicants for registration under the above Act were received from the Veterinary Inspectors and are submitted herewith. I recommend that those premises be registered when they have carried out the recommendations of the Inspectors.

The Dairies and Cowsheds Inspectors carried out 82 inspections of premises in the county. Their reports were satisfactory.

School Medical Inspection—The following schools were inspected during the month:—Fenor, Tramore Convent, Kileshal and Whiteschurch.

The total number of children examined was 337. The following principal defects were found and referred for treatment: Dental 195; Tonsils 38; Vision 37; Malnutrition 10.

Treatment under S.M.I. Scheme—Six Dental Clinics were held during the month, at which 60 children were treated, five as conservative patients.

Twelve cases of Tonsils and Adenoids were treated during the month.

Inspection of Midwives—During the month Midwives were inspected at Mothel, Waterford, and Kingsmeadow Nursing Home.

Helvick Pier
Commissioner Moynihan, referred to the number of visitors to Helvick during the summer months. He referred to the condition of the lavatories, and said that Bateman, the Harbour Constable, said the cleaning of the lavatories is not part of his duty.

The Commissioner also spoke of the condition of the place where the camps are situated and said that the place at times is littered with papers, etc.

An order was made that a sum of £3 per annum be given to the Harbour Constable as caretaker of the Life-Saving appliances at Helvick, and for keeping the place clean and tidy, this to include cleaning and disinfecting of lavatories.

Free Milk
A letter from the Department relating to the approved Free Milk Supply Scheme under the Board for the months of April, May and June, 1937, pointing out that the expenditure is somewhat excessive having regard to the average weekly amount available from the National Free Milk Supply Grant for the District. The letter stressed the desirability of conserving the grant so as to enable the greater portion to be available for the winter months.

The Department wrote with reference to the attendance of Dr. Cusack on Mrs. Fitzgerald, 9 Loughmore, in December last, and requesting that an explanation be obtained from Dr. Casey regarding the statement of Mrs. Dillon, Midwife, that she could not find him to attend to the

WATERFORD CO. COUNCIL.

COMMISSIONER ON LAND ANNUITY ARREARS

At a meeting of the Waterford County Council on Tuesday Mr. Commissioner Moynihan, presided.

County Surveyor's Report
Dealing with the County Surveyor's report.

The Commissioner asked if small road contractors would be a benefit.

Mr. Bowen said that on a few roads contractors would be economical.

Commissioner—Of course this is not the time to take this matter up.

Mr. Bowen agreed, but said it is a historical fact that some years ago we had 500 or 600 contractors and today we have none.

The Commissioner said he would consider the matter at the next roads meeting.

Dungarvan Urban Roads
Referring to the above roads the Commissioner said that a good deal of work had been done to the Urban roads and it was a heavy burden on Dungarvan ratepayers.

Mr. Bowen—It is very hard to bring the roads back, but the Dungarvan people will have to have patience until we have the roads as good as we would like them to be.

Ballyneety Bridge
Mr. Bowen said that the work of repairing Ballyneety Bridge was a troublesome job. Some of the steel in the bridge was of inferior quality and they had to have this removed and replaced. There was a certain amount of steel which could not be removed and they had only to make it last as long as possible by painting.

Kilbarry Bogs
In reply to the Commissioner Mr. Bowen said that now was an opportune time to have the Kilbarry bogs drained as they had only Mr. Moynihan and Mr. Meghen to deal with.

Commissioner Moynihan said he had consulted Mr. Meghen, Commissioner for Waterford City on the matter and would have something further to say when Mr. Bowen had looked into the matter.

Application For Increase
The County Surveyor applied for an increase of salary in respect of Urban roads.

The matter was adjourned.

Engineers
Mr. Bowen set out in a report the areas to be attended by his four assistants in connection with the County amalgamation scheme and suggested that the new scale of salaries should operate as from July 1st.

The Commissioner asked how the mileage for each assistant would work out.

Mr. Bowen, C.S., said he would supply the information required. He could not give it right off.

Commissioner—I would also like to have a map of the County with the area of each assistant defined. It would facilitate matters for me when dealing with the different areas.

Mr. Bowen promised to supply the map.

The Commissioner got an assurance from the Assistant Surveyors that in accordance with the forming of the scheme they would refrain from doing any private practice.

Infirmary Board
Very Rev. Canon Walsh; Rev. Father Power, and Mr. Robert Murphy, were re-appointed as members of the Infirmary Board.

Assistant Librarian
Mr. M. Brown, was appointed permanently as assistant Librarian at £140 per annum with an increment of £10 from 1st May 1938.

The question of the appointment of two additional members on the Library Committee was referred back to the Committee for the purpose of submitting a list of suitable names.

Land Annuities
Arising out of correspondence, it was stated that owing to the non-payment of land annuities a sum of £54,881 had been withheld by way of grants.

Commissioner—This is the accumulation of a number of years if he could solve the matter for the county.

Mr. Bowen—The people should know through the Press what the uncollected annuities mean. They would put good roads everywhere in the county.

The letter added that no expense should be incurred by the Board unless Dr. Casey was engaged on another case at the time in question.

The Commissioner made an order stating that having considered all the reports and correspondence in connection with this case, he considered that Dr. Cusack was entitled to the fee, and this has been paid. All correspondence in connection with the case to be sent to the Department.

Commissioner—I have pointed out to collectors a (the beginning that a special effort should be made to collect the annuities. In some counties they had a credit balance, but in this county we have a debit. It is a case of people who pay carrying those who do not pay on their backs.

Mr. Bowen—It would reduce unemployment considerably if the annuities were collected.

Commissioner—People who do not pay must not think they are hurting the Government, they are only taking it out of the ratepayers pockets.

County Surveyor's Report
For the first time I have to report there are no road contractors in the County. This is due to shortage of funds which necessitated a number of roads being left entirely without maintenance, and a large number of roads with only nominal sums provided to turn off floods and carry out such works as are entirely indispensable. When funds are available again it will be found desirable to let a number of out-lying roads to contractors.

Direct labour works were well advanced in the quarter under review. The weather was moderately good for the greater part of the period. Tarring work made good progress, and maintenance generally was attended to. On main roads some improvement of sides and bends was carried out, surfaces levelled, and generally satisfactory progress was made. On the County roads, which include many roads of first importance, very little has been done owing to the small sums provided. Practically no stone can be provided, and their condition is seriously deteriorating generally.

Some four miles of County Road between Mount Mellera and the Clogheen Gap are being rolled with the aid of a Relief Grant. The work is progressing satisfactorily, and we hope to have it completed at an early date. Owing to shortage of labour it was not possible to complete the road before the Tourist Season. It is worthy of note that this is the only regular rolling work to be done this season in the county. Probably some six miles further may be done by the improvement Grant to be provided later on this year. A reasonable annual rolling programme to meet the needs of the county would be about forty miles.

Outstanding relief works for the past year were completed in this quarter. These were usually small works of a routine nature. The erection of an entrance bridge to the new quarry at Glenshaskmore was completed. The work was well done, and the development of the quarry is proceeding under much improved conditions. This is a work of considerable advantage to the county. Relief works for the current financial year are not yet in operation.

Work on the Urban roads, Dungarvan, has been light. The amount of money passed for these roads is entirely insufficient, particularly in view of rapidly increasing costs.

The repairs to Ballyneety Bridge are proceeding. The cost of this work is likely to exceed the estimate—£295—owing to the great rise in costs in the past few months. Even with restricted weights the life of the bridge will be short.

Plant and machinery generally is in good working order and repair. Two new petrol lorries have been received, also two new tar boilers. These are working satisfactorily, and are of great benefit to the work. It is very desirable to have another tarmacadam mixer, for use on other works under the improvement Grant, as otherwise the work could not be done in the current year. The cost would be about £50.

An "Improvement" Grant, from the Road Fund, of £8,000, is expected in the current financial year. With this it is proposed to complete the rolling of the Lismore-Clogheen road, a portion of the Carrick-Waterford road near Portlaw, and a portion of the Waterford-Tramore Main road. It will not be possible to complete the latter work this year. It is an extraordinary state of things that compels us to spread the rolling of seven miles of road, from Waterford to Tramore, over a period of seven years. The value of these grants is still further reduced by getting them at the wrong period of the year.

It is well to raise again the centuries old question of the Kilbarry bogs, since we are about to improve the surface of part of the main road from Waterford to Tramore. In 1919 this road was first steam rolled. The low lying portions in this swamp were at that time raised by the rolling in of a bed of heavy stone varying in height up to about two and a half feet. For some time this kept the surface of the road above flood level. In the course of time the constant pounding of the traffic would have the effect of sinking the road somewhat into the underlying mud, while at the same time the water level was gradually rising, caused by the silting up or obstruction of the drains. Probably the biggest factor in the flooding is the refuse dump immediately within the City boundary. The result is that the surface of the road in parts is normally little above the adjoining water level of the swamp, while in times of high floods, especially if coinciding with spring tides, the road becomes impassable and traffic must be diverted to other roads.

The level of the road surface generally, is well above spring tide level, and it is not proposed to raise it, except in a few low spots. The more sensible thing to do

is to lower the water level. From an engineering point of view this presents no difficulty whatever. The cost also would not seem to be insuperable, particularly with modern plant and appliances. The only difficulty would be with the legal administrative, and title matters. These also should not be beyond solution if tackled with vigour and energy.

The Arterial Drainage Acts give certain powers to the two local authorities concerned, and provide for financing by means of substantial grants, contributions from the owners of the lands, and contributions from the Councils. The latter may be obtained by long term loans. No provision was made for the acquisition of the lands to be drained in these Acts, and herein lies the only difficulty. This can be remedied.

The present time is much more favourable to tackle this matter than at any previous period, when the business of both Council are administered by Commissioners. I therefore suggest an early conference on the matter, where the difficulties could be fully considered, and a practical scheme evolved and carried

County Surveyor's Report

The level of the road surface generally, is well above spring tide level, and it is not proposed to raise it, except in a few low spots. The more sensible thing to do

ABBEYSIDE SPORTS

(To the Editor "Dungarvan Observer")

Dear Sir,—According to the rules of the N.A. & C.A. all promoters of Athletic Sports have to apply for a vacant date, on or payment of the required fee, an official Permit for that date is issued. In the case of "Novice Sports" the Permit is issued by the Waterford County Board of the N.A. & C.A. and in the case of "Open Sports" (like Waterford Garda) the Permit is issued by the Central Council, with the formal consent of the Waterford Co. Board, and it becomes the duty of the Co. Board to see that no similar event takes place in the county on that date.

Waterford Divisional Garda were granted the first Sunday in August, but as this would clash with the altered date of the Munster Inter-County contests at Cahir, Sunday 29th August was selected as the only date that would not clash with other important fixtures, and Hurling Finals, etc. The number of "Novice Sports" held in Co. Waterford last year was seven, and this year, up to the present, no less than eighteen Sports fixtures have either been held or applied for, and hence the necessity for early applications. In the altered circumstances, Sunday 5th September was left vacant for the usual Abbeyside Sports, and although Sports are being held every Sunday during September, the first Sunday still remains vacant. Two announcements have appeared in your columns with reference to what are described as the "Abbeyside Sports." The first announcement stated they would be held on Sunday August 29th (the date allotted to Waterford Garda) and the second announcement mentions August 22nd, the date allotted to Sports in aid of Knockanore Catholic Church. Unless the promoters of the "Abbeyside Sports" conform with the rules governing such competitions any gasterated Athlete, or Cyclist competing in them will be automatically suspended. "Novice Sports" are being held every Sunday, all over the County Waterford and the rules are now so well known that no difficulty arises in the matter of arranging suitable dates. If the proposed "Abbeyside Sports" are to be held "under the Rules" my Board would respectfully suggest that they be held on the Sunday that was specially appointed for them.—Yours faithfully,

W. J. NOLAN, Hon. Sec.
Waterford Co. Board N.A. & C.A.

DUNGARVAN URBAN DISTRICT COUNCIL

NOTICE TO CONTRACTORS

TENDERS are invited for the Erection of 78 four-roomed Houses at Mitchel Street and St. Thomas Street (Clearance Area), Dungarvan and Development Works including New Roads, Paths, Sewers, Water Mains, etc., and the laying of a new Main Sewer with manholes, etc., in St. Thomas Street.

ALSO:
For the Erection of 61 Houses comprising of 51 four-roomed and 10 three-roomed Houses at Gallows Hill, Dungarvan, and Development Works including New Roads, Paths, Sewers, Water Mains, etc.

Contractors may tender for either of both Sections but Contractors who tender for both Sections must fill in and complete the Tender Form for each Section separately.

Separate Drawings, Specifications, Conditions of Contract, and Form of Tender have been prepared for the Works in each of the above two sites by Mr. D. S. Doyle, 43 Parnell Street, Clonmel, and Mr. J. Ormond, 5 Emmett Street, Dungarvan, and copies may be had on application to them. Each application must be accompanied by a deposit of £4 4s. for each Section. The deposit will be returned on receipt of a bona fide Tender and the return of all the documents.

Tenders, sealed and endorsed giving the names, descriptions and addresses of two solvent sureties or of an approved Guarantee Society to be lodged with the undersigned not later than 4 o'clock p.m. on Friday, 27th August, 1937.

The lowest or any Tender not necessarily accepted.
By Order,
WILLIAM O'MEARA,
Town Clerk.

6th August 1937
Town Hall, Dungarvan,
County Waterford.

IN "THE LAND OF THE MIDNIGHT SUN"

Interesting Cruise By A Popular Cappoquin Gentleman

(From Our Cappoquin Correspondent)

Mr. James Lincoln, the well-known and esteemed Manager of the Cappoquin Bacon Factory, has just concluded a most interesting and delightful cruise to the Faroe Islands, Iceland, "The Land of the Midnight Sun," Spitzbergen, the Ice Barrier, the Norwegian Fjords and Bergen, on the famous Blue Star Cruising Liner, "Arandora Star," which carried a full complement of 400 tourists for this varied and extensive cruise, which lasted three weeks.

Amongst these 400 tourists no less than 16 different Nationalities were represented, Mr. Lincoln enjoying the rare distinction of being the only Irishman in the party.

The passengers included many notable and distinguished persons from various countries, and they certainly proved a most cosmopolitan party in every sense of the word.

A few of the most prominent passengers included His Highness, The Thakore of Rajkot, and Suite, the Hon. Sir Edgar R. Ewing, K.C.M.G.; Sir Montagu Burton and Lady Burton, Rev. J. M. Bampfield, Dr. W. L. Bentley and Mrs. Bentley, Col. A. S. Capper, D.S.O., Mr. and Mrs. G. Hagenbruch, D.S.O.; Mr. and Mrs. G. Hagenbruch; Sir Arthur Horn, C.M.G., M.D.; Father A. A. Lee-leret, the Right Hon. Viscount Lee of Fareham, G.C.B., and Viscountess Lee, Baron C. D. E. Menasse, Major-General Sir Charles Mac Watt, C.J.E.; Capt. R. B. McCowen, R.N.; Capt. R. F. R. McNeill, Lt-Commander L. Robinson, R.N.; Sir Stanley Woodruff, C.M.G., M.D., and Lady Woodruff, etc., so that it can be seen that Mr. Lincoln was moving in the highest and most exclusive social circles during the cruise.

Leaving Tilbury Docks, London, on a Saturday afternoon, the steamer headed due North for the Faroe Islands, which were reached on the following Monday night. The party went ashore the following morning, their first impression being a most agreeable one on seeing pleasant grassy slopes and flower-gardens all around, while further inland they found the country dotted with silvery rivers, lakes and Waterfalls. A visit to the principal town of Transvaag enabled them to spend some pleasant hours studying the habits and customs of the natives, and watching them carrying on their principal industry of fishing, as the seas around the island yield immense quantities of fish of various kinds.

The next call was at Reykjavik, the capital of Iceland, with a population of about 28,000, this being the seat of Government, a University town and a great holiday centre. It is a more modern town than the visitor expects to find, and most of the houses are built of wood, and enjoy the civilised luxuries of gas and electricity, no central heating, cooking and lighting, while there are several up-to-date hotels and other fine buildings. The language spoken is principally Danish, but English is readily understood at all the leading shops and hotels. The longest day in Reykjavik is June 22nd which is 22 hours, and the shortest is December 22nd, which is only 4 hours. While ashore, the party enjoyed a series of motor tours through 170 miles of grand rugged country, and were much impressed by the stately grandeur of the lofty ice-bound and snow-capped mountains all around.

They visited the Great Geysir, one of the most remarkable sights on the island which, after having lain dormant for over 20 years, became active again in the summer of 1935, and continues now with an eruption of boiling water every day which rises to a height of over 100 feet. Many smaller hot springs are to be found on the island, the water from which is used by the natives for cooking and washing purposes, and also for the heating of their houses through pipes.

After a full day ashore, which was full of absorbing interest for all, the party rejoined the steamer, and soon passed by Jan Mayen Is., still heading Northwards, but did not land here. Magdalen Bay was reached on Sunday, which, owing to the beauty of the rugged peaks rising high above the icy plateau of the interior, rejoices in the title of "The Pearl of Arctic Scenery." Here the steamer reached "The Ice Barrier," beyond which further navigation northwards is impossible, this point being well within the Arctic circle, and only 566 miles from the North Pole.

The majesty of the towering icebergs here, which glistened and scintillated in the sun rays, and reflected myriads of brilliant and varied-coloured hues, was a striking and awe-inspiring spectacle, which charmed and impressed the tourists beyond expression.

Kings Bay was next visited, where the wreckage of Amundsen's Plane is still visible, and near which an inspiring monument has been erected to the memory of this intrepid Arctic explorer. It was here the party first saw the sun shining at midnight, which gives the place the title of "The Land of the Midnight Sun" and the spectacle was a wondrous and enthralling one, as the sky was a mass of dazzling colours, such as can be found when watching a sunrise on the Mediterranean.

While at King's Bay, several members of the party were savagely attacked by thousands of infuriated seals, owing to the proximity of their nests and the birds had to be beaten off with heavy sticks, but not before several persons had received such severe facial injuries that they had to be treated by the ship's surgeon. Sassen Bay, Advent Bay and Green Harbour were next passed, after which Bear Island was reached, this being a small island between Hammerfest and

Spitzbergen. It is a very lonely place, but visitors cannot fail to be impressed by the glistening grandeur of its ice-bound rocky coast. Nor are they likely to omit speculations as to how the inhabitants, hardly folk though they be, can exist on so bleak an island as this must be in the winter time.

The North Cape was the next point of interest reached, this being regarded as the most northerly point of Europe, though, to be precise, this distinction belongs to Nordkyn, further east.

North Cape rises dark and solitary 1,000 feet above the sea, and is crowned by a granite column and cairn. By the weird light of the Midnight Sun the scene is uncompromisingly wild and eerie: Carlyle, Bayard Taylor, Longfellow, and many other noted people have been stirred to glowing eulogies by this supreme spectacle, 200 miles within the Arctic circle.

Mr. Lincoln and many other members of the party climbed the lofty mountain here, which is called "The Long, Long Trail," which is a steep and arduous climb, but they were amply rewarded by the magnificent view which it afforded of the Midnight Sun and the glistening waters of the sea below, between itself and Bear Island.

While The Midnight Sun was shining in all its glory, a perfect Rainbow was visible in the Northern sky, the entire spectacle being something wonderful to behold.

Hammerfest, the most northerly town in Europe, with a population of 3,500, was next visited, this being a well-built, compact place fringed with picturesque old warehouses, but not a single tree grows in the neighbourhood. From the middle of May till the end of July the sun never dips below the horizon, but when it does on November 21st it does not appear again until January 17th. On landing there, the visitors were much struck by the industrious habits of the natives, who were busily engaged in curing fish, which is the staple industry of the place.

Lyngen was later visited, this being a charming little village which lies among the hills bordering the Lyngenfjord, one of the grandest of the Norwegian fjords in the far north, between Tromso and Hammerfest. The scenery about here is very fine, and the visitors were much struck by the signs of fertility and vegetation all around, which reminded them that they were reaching more temperate zones as they were proceeding southwards. The town of Tromso, which is considered the capital of the Arctic, owing to its sealing fleet working from Siberia to East Greenland and as far North as the ocean is navigable, was the next point of interest.

There is a large Lutheran Cathedral here and also a fine Museum, which contains varied collections of the flora and fauna of the Arctic regions, besides historical and ecclesiastical exhibits of great antiquarian interest, the Lapp collection being quite unique. It was in this town that the visitors first met with a camp of Laplanders, these people being part of the remnants of the aborigines of Scandinavia who, with their brethren in Lapland, are the last Nomads in Europe. They are Christianised, but their civilisation, owing to their wandering habits, is unique in many respects.

Trounhein, an important city, with a population of upwards of 55,000 inhabitants, proved a place of great interest to the tourists. It is the largest city in so high a northerly latitude in the world. It was here the first Christian Church founded in the country, and dedicated to St. Clements, stood.

The trade of Trounhein is much inferior to that of Bergen, its chief industries being copper, train oil and dried and salted fish. Large shipyards and engine works are also situated here.

The party next visited the town with the startling name of "Hell," which is reached by a motor tour from Trounhein. It is some 30 miles from the latter town by rail, and is a spot much favoured by tourists. Its green valley is flanked by wooded woods, and in the vicinity is the beautiful Lake Jonsvand and the fine Lerfos Waterfall.

Mr. Lincoln says it is not a bit like the Hell we were told about in our schoolboy days, and in fact he says he would like to be able to visit it again!

The little hamlet of Merok proved a scene of great delight to the party. It lies at the head of the grand Gieraugerfjord, which is, by far, the most magnificent fjord in Nordland, and is declared by many travellers to be in beauty and grandeur with the famed Laeralfjord.

The delightful little village of Olden was next visited, and was found to be a most interesting spot for all. It is a place which is attracting increasing numbers of travellers, being a convenient starting-point for several excursions, while it also affords splendid salmon and trout fishing.

An excursion was organised here through some of the most charming scenery "the tourists being conveyed by "Stolkjerres," these being pony-drawn vehicles somewhat resembling the Back-to-Back Traps so much in vogue in many parts of rural Ireland today.

Each vehicle carries four passengers, and the one in which Mr. Lincoln was driven had representatives of four Nationalities, viz., Norwegian, English, Scotch and Irish, which proved the cosmopolitan personnel of the party.

They later crossed the beautiful Lake Oldenvaud by steamer, and were picked up on the opposite side by the "Stolkjerres," and later had lunch in a large farmhouse where everything was served in the most modern and appetising manner.

They later visited the famous Melke-vold Glacier, which appears to completely close up the valley with its mighty masses of ice, while on both sides of the lake, gigantic peaks and lesser lesser glaciers rise alternately.

Situated in most imposing surroundings, this "Blue Glacier" is generally considered one of the finest in Norway, and rises to such a lofty and majestic height that its peak is completely lost

light of as it merges with the azure blue of the sky overhead. Laeral, a tiny straggling village, was the next halt.

The scenery here was most beautiful, but became more and more impressive as the road crossed the foaming river and commenced to ascend the Fjellfjeld, rising abruptly to Maristnen, 2,600 feet above sea level.

After a thrilling mountain climb, the party reached Aardal, which is the most inland part of Sognefjord.

Laeral and other places of interest having also been visited, the next and last halt in Norway was at Bergen, which proved one of the most interesting visits during the entire cruise.

Bergen has a population of over 100,000 and is known as the Commercial Capital of Western Norway. It is in the centre of the most beautiful part of the country, its old name being "Bjorgvin," meaning "The Pasture among the Mountains."

Motor drives were arranged for the tourists through all the most historical and interesting parts of the city, and many of the fine buildings were greatly admired by all.

From the Catholic point of view, Mr. Lincoln says that the ruins of Lyse Cloister provide the greatest point of architectural and ecclesiastical interest, as this was once an imposing and important Cistercian Monastery within whose ruins many traces of its former glory can be found today.

A motor drive through the Nygaard suburb will bring tourists past Fjosanger, where the Royal Residence is situated. The Fanfot Church is another great place of interest, a return drive back to the quay was made by way of Birkeland and the suburbs, from which a magnificent view of the town is obtained.

After leaving Bergen, two further days of cruising by the "Arandora Star" brought the party safely back to their starting point at Tilbury Docks, London, where the entire company disembarked after a most enjoyable and educational holiday.

Mr. Lincoln states that despite the many different Nationalities in the party, and the various grades of rank amongst the passengers, the relationship between all classes on board was of the most fraternal and social character throughout, all being treated on a basis of social equality which formed a strong chain of friendship amongst all.

This was particularly noticeable in the course of all the games and amusements held during the cruise, and more particularly so in the case of the "An Revoir Banquet" held at the end of the trip when all entered into the spirit of the festive occasion with a rare display of equality and harmony.

He speaks very highly of the great comfort of travelling on such a fine ship, and pays a high tribute to the invariable kindness and courtesy of all the ship's officers towards the 400 passengers, whether they were in warm sunny climes, or away amidst the frozen wastes of the Arctic Circle.

Although he has had many interesting holiday tours previously through Holland, Germany, France and Belgium, and other European countries, he states that the cruise just completed has been the best and most enjoyable holiday he has ever experienced, the pleasant memories of which will be treasured by him for the remainder of his life. He has now returned to Cappoquin much benefited and improved in every way, and is already looking forward to another trip to some hitherto unexplored regions next year.

CAPPOQUIN NOTES

A Distinguished Teacher—The Rev. Brother Louis Walsh, M.A., son of Mrs. Catherine Walsh, Broom, Cappoquin, and brother of Mrs. P. Colender, Castle street, Cappoquin, and Mrs. J. O'Keefe, Broom, is at present home on a well-earned holiday, and his host of friends in the Cappoquin and Mellis districts are delighted to see him looking such a picture of health and strength at present.

Brother Louis was originally attached to the Teaching Staff of the Presentation College, Cork, and later was Headmaster in the Present Colleges in Dunleary and Cobh, and in each place he proved his great worth and erudition as an educationalist of a high order whose invaluable services were quickly recognised by all.

He has now been transferred back to his former centre of activities in the Presentation College, Cork, where he is the leading member of the Teaching Staff of the Senior Classes in that important and successful educational establishment, and the students under him have every reason to congratulate themselves on having such a learned and brilliant Teacher at the head of their Classes.

All his old friends in Cappoquin wish him a very pleasant and enjoyable holiday during his brief stay in this invigorating district.

A Popular Gael—Mr. Thomas Bagge, a native of Ardaraigh, Clashmore, who has filled an important position in London for several years, is home for a short holiday amongst his old Gaelic friends in Clashmore.

Mr. Bagge was a prominent supporter of the G.A.A. before going to England, and has never lost his interest in the National games since he left the old homeland.

He has been fortunate in meeting in London another well-known Clashmore Gael in the person of Mr. Jack Barron who was for years the able and brilliant Captain of the Clashmore football club when it was at the zenith of its power in West Waterford, and both are now closely associated with the London-Irish football club, of which Mr. Barron has been recently elected Captain. Clashmore should be proud of those two sterling Gaels who are now so nobly keeping up the spirit of their race in the "Land of the Saxon."

INCH NOTES

The Hurling Tournament—Sunday will be a red letter day in local Gaelic annals, and if only the weather be favourable every schoolboy and girl sportsman and most of the women in the district will be present when at 2 p.m. old time Mr. Eamon Fleming will set the ball rolling for the opening match of the Inch Silver Medal Tournament. Although this is the first venture of its kind ever held in this part of the parish it is not by any means the first time that rival teams filled with fiery zeal and buoyed up with fierce determination to do and dare, and give of their best to win victory for their club or side—have faced each other in this very townland to battle for supremacy in the hurling and football arena. Long before the inception of the G.A.A. on a certain Sunday in July—the Sunday nearest to the date on which the old Mount Uniacke fair used to be held—it was the custom for the men from the northern side of the parish to line up in the fair field against those from the south. There was then no referee. Somebody threw in the ball and away they went, each side striving to bring home the ball, and usually the game lasted until the players were all tired out. Well those days are now but a memory and a very fleeting one at that, but the sport that thrilled those men is with us still. Our boys on Sunday will with us all have those deeds of far off days to emulate, they will have the greater traditions of the more recent past to maintain. Time has not dimmed the halo that surrounds the name of all conquering Dungeuney. "Enough of their glory remains on our swords to lead us to victory yet." Curiously enough, the two teams that will open the Tournament on Sunday are joint inheritors of that glory, for it was Inch-Killage and Castle-martyr that were the backbone of that great team. Not alone did Dungeuney win tournaments and Championships, including All-Irelands, but they built up a great reputation for the manner in which they played the game. We earnestly appeal to all those who will take part in Sunday's great matches to remember that the team that matters most is the manner in which each man does his part. If that is done in the proper spirit on Sunday it will be the day of days in the parish.

The sight of a mouse scuttling across the floor is often—or rather was often—sufficient to send a woman into hysterics or seeking "safety" on the top of a convenient table or chair. That day, apparently has gone, for we notice most of the exhibitors at the Mouse Club Show at St. Alban's recently were women. Mice of many colours (everything except pink) were displayed. It is queer that women should ever have had a special dread of mice because the patron saint of mice is a woman—St. Gertrude of Nivelles. She has been depicted with a mouse on each shoulder and one floating over her head. Anyway, we know of a Fiddown female who is fond of dubbing her Portlaw wooer her "pet mouse!"

Sportlaw Spark sent us a newspaper strip containing a notice that a haunted house furnished is to be let for the summer holidays. Beyond stating that the dwelling is by the sea there is no hint as to its location. Is there a haunted house anywhere along the Waterford seaboard? No doubt the more famous of our mansions have their spirit legends but they would not be "let." The question "What constitutes a haunted house?" is now a subject of general discussion. Of course, the idea of the advertiser is to attract foolhardy clients who, seeing nothing abnormal, will boast for the rest of their lives that they are fearless folk. But surely there is an onus on the advertiser. An individual who maintains that his house is haunted should be compelled to prove the fact or else he is faking money by false pretences. We would imagine if we paid a good figure for the use of a haunted house we should at least see something resembling the nursery room conception of a ghost and hear the jangling of chains when midnight strikes. It would be interesting to learn something as to the sequel of this haunted house advertisement. The details should be frightening.

To the joy of young and old of the population of Portlaw and pursues the Marchioness of Waterford is in residence at her magnificent mansions at Carrigrohane, where her ladyship is entertaining for a number of functions in our midst.

The "manly art" is making appreciable headway in our Leather City, where the newly-formed club has been affiliated with the Irish Amateur Boxing Association. There are more than 150 members listed on the Club register already, and the prospect for ringfight here in future assumes a most appreciable aspect. To Garda "Boy" Murphy is entrusted the training of the "Sportlaw Sparks," and all acquainted with his ability in this capacity are aware that if the stuff is there he will utilise it to the utmost advantage. Garda Murphy has expressed himself as being very well pleased with the material he is handling. Here's hoping the height of success to our "pugilistic" lads.

Lord William Beresford, Georgetown House, Kilmathomas (brother-in-law of the Marchioness of Waterford) has very graciously presented a valuable shield to be put up for boxing inter-club competition in Waterford when all existing duly affiliated clubs will have completed their championship contests. Lord William is Joint Master of the Waterford Fox-hounds. All forms of clean manly sport strongly appeal to his lordship, who is one of the most genial and generous of genuine gentlemen you could wish to meet.

The Gaels of Portlaw and Kilmadden sincerely sympathise with Mr. J. Flavin, of the Mount Sion Hurling and Football Clubs, in his recent bereavement occasioned by the death of his father.

MULCAHY'S—DUNGARVAN

PORTLAW "PICKINGS"

Since our capital senior camanists conquered Mount Sion in the East Waterford Divisional Championship of the current year, a Senior Hurling League, under the aegis of the Eastern Board, has been established, and draws made, as under:—

First Round—Mount Sion v. Erin's Own; Portlaw v. Mooncoin; P. H. Pearse v. Carrickshock.

Second Round—Erin's Own v. P. H. Pearse; Mount Sion v. Mooncoin; Carrickshock v. Portlaw.

Third Round—Carrickshock v. Erin's Own; Mount Sion v. Portlaw; Mooncoin v. P. H. Pearse.

Fourth Round—Mooncoin v. Erin's Own; Mount Sion v. Carrickshock; P. H. Pearse v. Portlaw.

Fifth Round—Portlaw v. Erin's Own; P. H. Pearse v. Mount Sion; Carrickshock v. Mooncoin.

The draws for the Senior Hurling Tournament in aid of the Kilmadden Branch of the Gaelic League, read:—Portlaw v. Mooncoin and Mount Sion v. Erin's Own. Both these bouts will, we understand, be played on the Portlaw pitch.

When Mount Sion's objection to Portlaw being awarded the senior hurling divisional championship came before the latest meeting of the Eastern Board—Mr. Phil O'Donnell (Chairman) presiding—the Board gave the game to the Leather City set by eleven votes to four.

POPULAR CARRICK-ON-SUIR LADY'S DEATH

The death is regretted by a large circle of friends of Miss Kate Conroy, Kilkenny street, Carrick-on-Suir. Deceased was the aunt of the Rev. Thomas Conroy, S.J., Hong Kong, China, and a sister of the late Mr. J. Conroy and Mr. Michael Conroy, Engineer, Carrick-on-Suir and of Messrs. Thomas and John Conroy, Engineers.

NOTABLE EXAMINATION RESULTS

Miss Stasia Dempsey, Ardboy, near Carrick-on-Suir received 19th place out of 1,000 candidates at the recent examination for entrance to the Preparatory College. Miss Mary Hearn, Moodigue, near Carrick-on-Suir, secured 17th place at the recent Writing Assistants examination.

Miss Dempsey and Miss Hearn, are pupils of the Presentation Convent Schools, Carrick-on-Suir.

KILMACHTHOMAS NEWS

Several Local—Had the pleasure of being in attendance at the Royal Dublin Society's latest and greatest Horse Show—brought off at Ballsbridge. With pardonable pride we note that our universally esteemed neighbour, Mr. Arthur Hunt of Rockmount, functioned as an adjudicator in the classes for brood mares and young horses with his wonted ability. That Mr. Hunt (who by the way, is President of the Dungarvan Show Committee and doyen of the Waterford Hunt Club) is a well-known and widely recognised authority on blood-stock, is a fact obvious as it is pleasing to publish. The hunter classes at the Show were regarded by the judges as the best seen for a considerable number of years. The prize-winners included another of our sterling sporting neighbours, in the person of Mr. Roger Shanahan, of Ashdown, whose entry was placed third in the class for three-year-old geldings.

A £5,000,000 Custom—"Give me a light, please," and "Give us a match, mister," are two of the most frequent requests made to us in the street, train and bus. It seems to be a common misfortune of smokers never to be able to find a match when they are in need of one, yet thousands are manufactured every minute.

Dublin turns out millions of matches every day—the modern match-making machine can produce 10,000,000 matches a day—and the latest estimates show that the production of matches in an Saorstát is equivalent to about 60 boxes a year per head of the population.

We have come to regard the selling of matches as the last resort of the down-and-out, but it brings in tremendous revenues for numerous Governments who hold monopolies in the selling of them.

The making of matches was one of the first matters to receive the attention of the League of Nations after its formation in 1919. A conference discussed the use of white phosphorus in the manufacture of matches which was the cause of a disease among match-workers.

The humble, insignificant match can assume a grotesque importance when we are "out in the great alone" and dying for a smoke, but have no means of lighting up. Yes, on such occasion a fellow in a bad way. On the other hand, the chap you sit next to in the train or bus will hand you one without a second thought. You will scarcely trouble to thank him, and having lighted the match you will fling it away with a lordly gesture—in which case the indifference of the donor can only be equalled by that of the receiver.

Matches—invented in their present form 100 years ago—started not only a great industry, but also a new pastime. There are uncountable match tricks going the rounds in and out of the Rathfriland region; arrange 12 matches in such a manner as to take seven matches from ten and leave five, . . . and so on.

Then people begin to make different useful articles with matches—clocks, violins, toys, miniature buildings, and furniture. At the moment the Metal Man of Tramore's Mrs. is engaged in making a parquet floor from 1,000,000 lucifers. Hundreds of people collect match boxes as a hobby. We know a Carroll's Cross chap who has well over 500 different varieties, the majority of which were collected during his train journeys from home to his school in Waterford City.

Quaint and interesting things have been built or hidden in match-boxes—jewellery, drugs, plans, and copies of important documents. Quite recently the wife of a Dunhill man who is domiciled across Channel gained a prize for packing 600 articles into a single match-box. They included over 200 different parts of watches, stamps, buttons, needles, and even a clap net.

It's a strange thing that only millionaires would light their cigars with a five-pound note, yet we spend £5,000,000 a year just to light our fires, "lags," pipes, and gas stoves.

New Dictionary (Final Instalment)—Saw—Film fan's shining example. Socksack—Filling-up station. Statesman—Professional draughts player—a mover of "men" and the power behind "kings."

Spinsters—An unspoken cause; sometimes a forlorn hope, and for all one knows an unappropriated blessing. Surgeon—Facile swordsman who will disembowel you as soon as look at you and then ask you to pay him for HIS pains.

Souvenir—A token to remind you of something it is impossible to forget. Tact—Getting your foot out of it before you put it into it.

Tart—A little bit of puff, some spell it out.

Tea—A diabolical beverage consumed by tea-totalers; yet while many have gone to the dogs through the bottle, you cannot indulge in tea-drinking without going to pot.

Tear—A liquid lyric; a song without words.

Temperament—A special privilege of artists and rich folk; if you have neither art nor money then it is called damned laziness, bad temper, viciousness, and a lot of other nasty names.

Tongue—A dangerous organ, like the vermiform appendix, which some people ought to have removed; in short, cut their cackle.

Thinker—A person we want to hang because he puts ideas into our heads. Thirst—A call to the bar.

Tramp—Pungent smelling weed found in summer lanes and hedgerows. Trousers—Pressing necessities, when it's summer time in Innisfail.

Umbrella—An indispensable accessory. University—Place where you are obliged to learn dead languages, the names of royal persons, write idiotic essays on Queen Oonshaugh, and prepare yourself for big disappointments.

Undertaker—An obnoxious customer we are all obliged to do business with, but our first dealings with him is our last. Upstart—One who has had greatness thrust upon him and doesn't forget to let you know it, for you can do nothing but "laugh" and "laugh" at him.

Unemployed—One of the found, fired and forgotten; that is—found superfluous, fired unceremoniously and systematically forgotten.

Vanity—An egotistical indulgence, which in ourselves gets the name of self-expression; in others it is called insufferable priggishness.

Vamp—A beautiful sorceress, whose pastime it is to assist men to discover their capacity for being reduced to the last stages of sentimental imbecility and economic depletion.

Vitamin—Another scientific mumbo-jumbo thoughtlessly swallowed by everybody.

Vulgarity—Revealing what is in you of the peacock and the baboon, not to mention the donkey and the jackass.

Wife—A woman who dedicates herself to the taming of the savage, man, of whom many thoughtful husbands must say: "Light of my life, but for your help and encouragement, your unflinching interest in my work, your ever ready counsel in emergencies, your faith, your tenderness, and your constant inspiration, I should never have been the man I am—but what's the use of complaining!"

Wedding—A one-act tragic-comedy got up for the entertainment of your friends; it is called: "When Cupid Laughs," or "Pity the Poor Convicts."

Wit—A gift some people have of turning out, verbal funninesses. If you have no wit don't worry, for you are possibly the cause of wit in others.

Women—Minutes in men's lives. So said Mary Stuart. Woman—The rib and crooked piece of man. She is defined in the Sanskrit as being formed by the Vulcan of Hindu mythology from the following ingredients: "He took the lightness of the leaf and the glue of the lawn . . . the inconstancy of the wind . . . the vanity of the peacock and the softness of the down on the throat of the swallow. He added the cruelty of the tiger, the warmth of fire and the chill of snow, the chatter of the jay and the cooing of the turtle dove. He melted all this and formed a woman. Then he made a present of her to man." (We always thought she was a mixed lot).

Work—Once a necessity, but rapidly becoming an impossibility. Whiskey—Complexion food; brings out the unattractive colours of your skin; paints your lily-white cheek a ripe raspberry hue, and gives you a perfectly glamorous nose.

Wisdom—The glory of man; once aspired to as the supreme good; but our advanced and fed-up age can aspire to nothing better than a "good time."

Year—365 follies. Yesterday—Yet another page added to the history of your tarnished past.

Youth—The trial and error stage of existence, and the season for the sowing of the oats called wild.

Zoo—Caged houses from which funny animals look out at still funnier ones.

Crops—From the foot of the Comerags to the rim of the sea there are reports of prospects of abundant crops following the spell of fine weather that began towards the end of last month. The oats and wheat crops have benefitted considerably by the warm sunshine.

Did You Hear—

The County Board of Boxing is being formed in Forthgale.

That parties sponsoring the establishment of this executive aim at making it the mercurium of which the many matters pertaining to the many art of fisticuffs can be properly controlled and regulated within the confines of the County?

That the Commander of the British battleship, Rodney, motored from Cove to Stradally Catholic Churchyard on Friday of last week and placed a beautiful floral wreath, of "anchor" design, on the grave of Gunner Michael Fitzgerald, the victim of the sensational shooting affair in Woodhouse Demense on the 1st inst.?

That the three pupils of the Christian Brothers' School, Tramore, who successfully competed for the Matriculation examination last June were: Thomas Keogh, Tivoli Terrace, Tramore; Sean Torpey, The Terrace, do; and Padraig Ryan, Ferrybank.

That Ireland's record-breaking weight-thrasher Garda E. Tobin, will appear at the sports meeting in Tramore on tomorrow (Sunday), in aid of the local Athletic Club and the Carnival Fund?

That Annetstown Anne will patronise the annual Garda Sports at Dungarvan on tomorrow week?

Anniversary Office And High Mass—For the repose of the soul of Very Rev. John Foley, P.P., Kilgobnet, were offered up at St. Anne's Church, Ballylaneen, on Friday morning of this week. The deceased Pastor was a brother of Mr. Jeremiah Foley, Ballynabogue, Kilmachthomas—Requiescat In Pace.

In Memoriam—Office and High Mass were celebrated in St. Anne's Church, Ballylaneen, on Monday, for the eternal welfare of the soul of the late Mr. Morgan Whelan, Ballynabogue North, Kilmachthomas, the anniversary of whose death occurs about this time.—R.I.P.

Grain Crops—Are fast ripening in the Kilmachthomas rural district, and mowing operations will be begun in several townlands during the coming week.

THE LATE MISS N. GUINAN, YOUGHAL

The funeral of the late Miss Nora Guinan, on Monday from the Parish Church to North Abbey Cemetery, was made the occasion of a very striking display of general public regret and sympathy. The deceased lady for many years past took a leading part in all local Church and charitable activities, including the Children of Mary, the Altar Society, the Women's Confraternity and the Parish Choir. In the last she acted as choir leader, taking her part at the 12 o'clock Mass and at the evening Benediction Service on the Sunday before her death after a few days illness. In the charitable sphere she will be sadly missed by many of the poor, sick and well.

The officiating clergymen were:—Very Rev. Canon Dinneen, D.D., P.P., Rev. E. J. Fox, C.C., Rev. D. Duane, C.C., and Rev. M. Twomey, D.D., C.C. The chief mourners included Miss M. Guinan, (sister); M. J. Guinan (brother); Mrs. Curtin (cousin), etc.

The procession was headed by an imposing procession and her fellow members of the Confraternity of the Holy Family, the Children of Mary the Altar Society and the Parish Choir.

There was a large gathering of the general public including the Chairman of the County Council, the Chairman, Vice-Chairman, and members of the Urban Council, and the Town Clerk and other officials and many professional and public men from the town and surrounding districts.

On the coffin and bier were a number of beautiful wreaths and numerous Mass Cards.

AN URGENT APPEAL

Father Verbeek of the Holy Ghost Fathers writes on 7th July—"I am still alone, a young Father in charge of the town of Morogoro. I have also charge of a nice place called Tangeni in the Uluguru mountains, twenty miles from the main thoroughfare. The Mohammedans are very numerous everywhere along the main roads and on the railway lines, and I have to fight hard to prevent them from occupying Tangeni. I have a small school there in which I celebrate Mass every Sunday for my people, but it is not large enough to contain all who wish to be present. If we are to succeed in keeping the Mohammedans away I must have something more than the little school, and that, too in the near future. In other words it is absolutely necessary that I should build a church at Tangeni; then the Mohammedans would not try to occupy the place. The work carried on at Tangeni and its outlying schools gives great promise for the future. Most of the people in the neighbourhood are still pagans, and it can only keep the Mohammedans away, these pagans will be saved for God. The place will thus become a Catholic district as well as a centre and protection for the other inland missions.

I hope many kind benefactors will help me in the fight against the Mohammedans. Our Lord will bless them and the people of Tangeni and I will pray for them.

Donations for this very poor Mission will be gratefully received by:—The Sodality of St. Peter Claver, 49, North Great George's Street, DUBLIN, C. 14.

SAINT ANTHONY WONDER-WORKER!

Clients of Saint Anthony, seeking favours through his intercession are reminded for an offering for 1937 for "St. ANTHONY'S BREAD" and LAMP at Shrine at Convent of Mercy, Stradbally, Co. Waterford.

G. A. A.

MEETING OF WESTERN BOARD

At a meeting of the Western Board G.A.A., held at the Town Hall, on Wednesday evening at 8.15 p.m., the attendance was not up to the usual. The explanation as to the cause is the loss of interest by many of the clubs owing to defeat in County Championship matches.

The following Clubs were represented: Dickens Leather Co.; Cathal Brugha's; Ballyduff; Dungarvan; Tallow; Lismore; Cappoquin, Clashmore and The Pike.

Mr. Frank Ryan, Chairman presided. Also present were—Messrs. S. O'Neill, Vice-Chairman, Western Board; S. Hayes, Treasurer; M. V. O'Donoghue, Chairman County Board.

The minutes of the previous meeting were read and signed.

The Secretary read a letter from Mr. J. Malone, stating that he was unable to be present to referee the match between Stradbally and Dungarvan senior footballers on July 18th, at Dungarvan.

Referees reports were read on the following matches:—Minor Hurling—Tallow v. St. Carthage's; Junior Hurling Tallow v. Ballyduff; Senior Hurling Lismore v. Avonmore; Senior Hurling, Shandon Rovers v. Dungarvan; Junior Hurling Cathal Brugha v. Dungarvan.

The Ballyduff Objection Ballyduff objected to Tallow being awarded the Junior Hurling match played at Lismore on July 25th.

The Chairman said in this case, he thought it necessary for the Vice-Chairman (Mr. O'Neill) to try this objection as he (Chairman) was a member of the Tallow Club and consequently his decision would only satisfy one of the clubs in question.

Ballyduff put forward four objections against Tallow and demanded an investigation into the constitution of the Tallow team.

The Tallow delegates complained of not having received the objection for 3 days after it was noted in Dungarvan thereby not giving them ample time for a counter-objection.

Strong arguments were put forward by both sides and a lively discussion took place in which practically every delegate at the meeting took part.

Eventually the Chairman ruled it out as not being in order.

The second part of the objection was that one of the Tallow players competed at a sports meeting held under N.A. & C.A. Rules.

The discussion on this point was long-drawn out and lasted the best part of an hour. Several rules were quoted and the Bye-Laws were consulted on various occasions during the ensuing discussion.

Ballyduff delegates produced a witness to prove that the player in question took part at a "flapper" sports meeting, but that one of the Tallow witnesses was not a member of a G.A.A. Club his evidence could not be taken.

Every rule in the "official Guide 1934-1935," dealing with sports meetings and witnesses, members and non-members was read and heard again and again.

Some of the delegates were of the opinion that there were too many rules in the book; others thought there were too little, and the rule they wanted was not there.

The objection was left stand over until the remaining business of the meeting was transacted and when brought on at the close of the meeting the Chairman ruled it out.

The third and fourth objections were proved to be wrong by the Tallow delegates and were ruled out and finally the objection to the constitution of the Tallow team was also ruled out and the Ballyduff delegates gave notice of appeal to the County Board.

An objection by St. Carthage's Minor Hurling team against Tallow Minor Hurling team was ruled out for not being in order.

Mr. N. Kelly, Secretary Dickens Leather Co. Club asked for permission to include C. Moylan and W. Barron in their Junior Football team which is entered for the P.K. Medal Tournament.

The application was refused.

The Fixtures Committee made the following fixtures and dates:—Senior Hurling—Lismore v. Tallow, 20th August, referee ad venue to be fixed later.

Senior Hurling—Winners of Lismore and Tallow to meet Dungarvan on Sunday September 12th. Referee and venue to be fixed.

Referee for Junior Football match at Villierstown on Sunday next August 15th Lismore v. Villierstown—D. Goode.

Tallow were granted permission to play Ballylaneen in a challenge match.

THE STRADBALLY SHOOTING

GARDA ON MURDER CHARGE

A remand for eight days in custody was granted by District Justice McCabe, at Waterford, last Friday, in the case in which Garda John Joseph Daly, Stradbally, is charged with the murder of Michael Fitzgerald, at Woodhouse, Stradbally, on August 1st.

Michael Fitzgerald who was a member of the crew of the H.M.S. Rodney, died after receiving a gunshot wound while he was on the bank of the river Tay in Woodhouse Demense last Sunday night week.

Garda Daly appeared last Friday before a special court, which was held in the District Court Clerk's office an hour before the ordinary weekly District Court was opened. No member of the public was present.

Supt. Michael Dennehy, Tramore, made a short deposition, in which he stated he was still pursuing inquiries, and asked for a remand for a further eight days in custody.

District Justice McCabe acceded to the application, and accused was brought back to Waterford Jail by motor car under an escort of two Gardai.

DEPARTMENT OF AGRICULTURE

Export Bounty on Fresh Mackerel Minimum Price for Fishermen.

The Department of Agriculture announces that an export bounty will be payable on Fresh Mackerel exported from Saorstát Eireann to markets in Great Britain and Northern Ireland during the period of twelve months ending 30th June, 1938. Payment of bounty on exports made after the 31st March, 1938, will be conditional upon the necessary moneys for the purpose being provided by the Oireachtas. The bounty will be a sum equivalent to the amount of the British import duty paid.

During the period for which the bounty is in operation fishermen shall be entitled to receive for all mackerel in good condition, and ranging in size from grade 1 to grade 4, which may be taken over from them by exporters, payment at the following rates:—

(1) for mackerel caught by fishermen using seine boats and canoes or other small craft, 4s. 6d. per long hundred;

(2) for mackerel caught by fishermen using the Dingle motor hobbies or craft of similar type, 6s. per long hundred.

DEPARTMENT OF AGRICULTURE

Export Bounty on Fresh Water Eels

The Department of Agriculture announces that a bounty equivalent to one-half of the British import duty will be payable on consignments of fresh water eels exported from Saorstát Eireann to Great Britain or Northern Ireland on or after 1st August, 1937. The final dates on which consignments eligible for this bounty may be sent vary for the different Inland Fishery Districts. Particulars of these dates and of the conditions governing payment of the bounty can be obtained from the Secretary, Department of Agriculture (Bounties Section), Dublin.

WATERFORD CO. COMMITTEE OF AGRICULTURE
SHEEP BREEDING SCHEME, 1937
For the purpose of improving the breeds of mountain sheep in County Waterford, the Waterford County Committee of Agriculture are prepared subject to the approval of the Department of Agriculture to locate a limited number of High-Grade Black-faced Rams on the commonage areas of the Comeragh Mountains, and the Waterford area of the Knockmeal-down Mountains on the following conditions:—
1. The Committee shall grant to each selected applicant a Premium of 45 towards the purchase price. The Ram to be maintained in good and healthy breeding condition for two breeding seasons.
2. Purchasers of Rams shall be required to insure the animals against death for one year for the proportion of the price payable by them.
3. In the allocation of Rams the preference will be given to applicants who apply on behalf of Sheep Owners who are prepared to mate the rams to selected Ewes.
4. The Committee will endeavour to secure that only rams of a high standard of quality will be supplied but they cannot undertake responsibility in case any animal should subsequently prove unfruitful or otherwise unsuitable for breeding purposes.
5. In all cases of dispute in matters connected with this Scheme the decision of the Department shall be final.
Application forms, which must be returned on or before 21st August, 1937 may be had from the undersigned.
J. ODWYER, Secretary,
Courthouse, Dungarvan,
20th July, 1937.

G.A.A. NOTES & NOTIONS
By "CROTOG."
Sunday's games in East and West brought the County Championships to the final stages. This year the Eastern Divisional Board have been far more successful in running off their competitors to scheduled time, in this respect providing a happy contrast in efficiency to our administrators of the Western Division. The qualifying stages in the Championships were treated with more or less indifference by the public. More's the pity for they provided some splendid games. Yet, withal, there is little sustained interest and less enthusiastic speculation until the deciding rounds are reached. The word 'Final' seems to exercise a magic appeal and exert a grip on the sport-loving public which is lacking in the earlier rounds no matter how good the fare provided. Now that the proud and exultant finalists, those who typify the "survival of the fittest" idea, emerge from the welter of the fray to prepare themselves for the Last and Final Throw, there is a quickening of interest everywhere. That "what is there to get excited about" look fades from the faces of the "fans" and is replaced by an expression of eager longing for the joys and thrills of the Final.

Cathal Brugha's had only a point to spare when the final whistle terminated their junior hurling clash with their Dungarvan rivals. It was a close call indeed, and had not the losers been weakened through the failure of a few of their more prominent players to field out, the decision would probably have been reversed. It was a thrilling game, a real needle affair with the issue in doubt to the last. Young Daly of Ballynacorney caught the eye at once and gave such a superb display of hurling art that the critics who saw it can talk of nothing else since. Dungarvan have every reason to feel pleased at this much-needed acquisition to their defensive strength. Fitzy, philosopher that he is, takes his victory quietly his motto being "a short head is as good as a mile provided it is in front."

In the Senior Football semi-final at Waterford, Fenor ran up an early lead of seven points and then sat on it; and, a precarious seat it proved to be as, Erin's Own, mopping up their chances in the second half, got to within two points of upsetting the favourites. Indeed, if the city lads had a forward who could shoot a free straight, Paddy Gough's team would have been started even more than they were. Jim Ware, of hurling fame, had the misfortune to get three ribs broken, being crushed in an accidental collision with two other players. Conveyed to hospital (after a few days) he insisted on leaving and resuming work. There's an example of pluck and toughness which should be a headline to all Gaels!

The hotly fancied St. Stephen's went out in surprising fashion before Passage in the Junior Hurling Final of the East. Though fielding a galaxy of stars in Jimmy Mountain, O'Grady, Dalton, Plunkett and the Shortall brothers, the city team were well beaten in every phase of the game. "Doyle" Walsh's victorious team of fisher lads played with an ease and confidence which betokened steady training. And weren't they cute? Mindful of last year's blunder in trying to get goals past the unbeatable O'Grady, they concentrated on points. How well those tactics paid is amply demonstrated by the final scores of 1 goal 7 points to 2 goals 1 point. The accurate shooting of Walsh, Carey and the Bastons had a big influence on the sensational success of Passage.

Boyle Roche's Bird in the August issue of "An Gaedheal" sums up the Clonmel match in words so pregnant that I cannot refrain from quoting them:—"Hard Luck, Waterford! Sometimes Time does Wait for Champions." Laconic, what! Can you beat it? Why Caesar's famous three-word despatch seems voluble by comparison.

Tuesday night's meeting of the Western Board was almost entirely confined to the hearing of objections, quite a crop of which have materialised of late. Wish-ful to avoid the embarrassment of sitting in judgment on his own Club, Frank Ryan vacated the Chair prior to the hearing of the Ballyduff appeal against Tallow. The Vice-Chairman, who officiated was inclined to be precipitate in handling the case. The main plea on which Ballyduff relied was that John McCarthy of Tallow was alleged to have played Championship hurling with both Wexford County and Tallow Club in the same year. The point was at first overruled by the Chairman on the ground of ambiguity but then, after several protests from Ballyduff delegates and others, he altered his ruling and decided to hear the evidence. This was deemed insufficient and the point was ruled 'not proved' by the

BALLYDUFF NOTES

Rev. Edmund Meagher (5th P.P. 1901-1902)

On the transfer of Fr. O'Connor, as P.P., of Ballyduff (through an error Ballyporeen was given last week), Father Meagher who had been many years Curate in Ballybricken, Waterford City, was appointed P.P., of Ballyduff...

The Curate's House Ballyduff—Father Moran's best work here was the building of the Curate's House which is one of the best in the Diocese. It was designed by Mr. Michael Beary of Dungarvan, with acknowledged improvements suggested by the Curate Rev. Nicholas Power in some important particulars...

Fortified by the rites of Holy Church, Mrs. Mooney, wife of Mr. Robert Mooney, farmer, Kilmacthomas, Kill, died on Thursday of last week, after a brief illness and while yet in her early sixties...

The Large Stained Glass Lights—During Fr. Moran's Pastorship the beautiful stained glass window over the High Altar was provided by the family of Mr. James Daly. It was made by Watson of Eveshall, and is a grand addition to the beauty and prayerfulness of our Church...

To the Glory of God and in affectionate remembrance of Francis Daly of Mollop.—R.I.P. This window was erected by his loving widow, Mary Daly 1903. Fr. John Moran our 6th P.P., died in July 1912 and his body was interred in our Church cemetery, where a Celtic Cross in limestone and marble marks his grave.

G. A. A. JUNIOR HURLING CHAMPIONSHIP MATCH AT DUNGARVAN

CATHAL BRUGHAS WIN

At the Gaelic Field, Dungarvan, on Sunday last, under a broiling sun and before a small gathering Cathal Brughas qualified to meet Tallo in the Junior Hurling Final of the West, by the very slender margin of one point. The game was very exciting from the start and there was not a moment's lack of interest...

Mr. P. O'Donnell had both teams in action at 3 p.m. sharp. Play was fast and exciting, Dungarvan attacked and "Fitz" getting possession landed a nice point from a long way out. Cathal Brughas were the better team in the first moiety and increased their lead 2 further goals and 1 point, while Dungarvan had a virgin shot.

The half-time score stood: Cathal Brughas 2-2, Dungarvan 0-0

Dungarvan played better on resuming and very soon reduced the lead. Both sides scored alternately until within four minutes the score sheet registered Cathal Brughas 4-2, Dungarvan 4-1.

Excitement amongst the spectators reached boiling point and Fitz seemed to put the matter beyond doubt when he landed a nice goal from 24 yards out, and furthermore when his side was put further ahead by a point giving them the lead of 1 goal 2 points. On the puck-out being returned to the other end Sheridan shot a fine goal from a critical angle for Dungarvan. Dungarvan now pressed and scored a "70" which Daly landed in the "square" but was saved at the expense of another "70". P. Daly secured a nice point off this shot which only left a one point margin between the teams...

P. Daly (Dungarvan) was the best hurler on the field, he secured 2 points off two "70's", and was ably assisted by Cody. The winners were a more evenly balanced team. The Burke brothers, Coleman and Houlihan were outstanding and they were mainly responsible for the victory of Cathal Brughas.

The final score read: Cathal Brughas 4-2, Dungarvan 4-1

YOUGHAL NOTES

The Summer Season—

Is well on the way to establish a fresh record. For the better part of July the weather was anything but propitious with the result that everybody concerned was "down on the dumps". However, a decided improvement set in before the holiday week-end with the result that there was a big influx of visitors—trippers and stayers. As was stated at the last meeting of the Urban Council some 16,000 arrived by train, bus motor and otherwise during the week-end. Many of those came to enjoy a few days at the seaside, but a large proportion stayed over practically filling all the available accommodation on both the Strand and town. With the exception of one day, Wednesday, the other parts of the Strand, thereby giving lady swimmers similar facilities. The river trip to Cappoquin, and the sea trips to Ardmore, Ballycotton and Cable Island and the river trips to Villierstown and Cappoquin per the Council's motor boat "The Angelina", were largely availed of. When the gent responsible for the purchase of this fine boat—Mr. J. R. Smyth, P.C., first put forward the idea, he met with much opposition. As the saying is "the proof of the pudding is in the eating" and the purchase of this boat has been more than justified. Since bought she has cleared herself and is now a valuable asset. It is said that Mr. Smyth has suggested that the purchase of a somewhat larger boat, provided with suitable facilities to be used for sea trips would be worth the consideration of the Council. The Strand Palace dances were very largely patronised by young visitors, affording a pleasing change. The ferry trips to the County Waterford side of the Harbour proved a great attraction for a large number of country visitors. The cinema halls in Friar street, Mr. Hurst's Regal and Messrs. Horgan Bros. Picture Theatre also contributed to the enjoyment of the visitors. Granted a continuation of the present fine weather a very satisfactory season may be counted on if one is to judge by appearance and experience.

Interesting Event—Miss Janet Ryan, daughter of Mr. and Mrs. Joseph Ryan, of Whitney Road, Newtonville, was married on July 10th, 1937, to Mr. John Betram Peter Condon of Boston, son of Mr. and Mrs. Justin Condon of Ashton Court, Youghal, Ireland. The ceremony which was attended by members of the two families, was performed at Holy Cross Cathedral. A large reception was held afterwards at the home of the bride's parents, which was decorated with summer flowers and wood-wardia ferns.

The bride who was given in marriage by her father, wore a gown of white brocade satin, made with a high neck and long sleeves. Her veil was of tulle and she carried a bouquet of white orchids, gardenias and lilies of the valley. Miss Peggy Ryan, who was her sister's maid of honour, wore an old-fashioned gown of smoke gray organza with a full skirt which had fine tucks with lace all the way down the skirt. The two bridesmaids, Miss Shirley Ryan, another sister, and Mrs. William Hennessy, sister of the bridegroom, wore yellow organza gowns. All the attendants wore leghorn hats with emerald green streamers, and carried bouquets of coral gerbera and delphiniums.

Mr. Justin Condon, Junior, of New York, served his brother as best man, and the ushers were Dr. Charles F. Vallender, Junior, of Chestnut Hill; Mr. Donald, Brayshaw of New York and Mr. Philip Barker of Newtonville.

Mr. Condon and his bride sailed on the "Scythia" on July 17th to spend two months in Ireland and England. On their return they will make their home at Marlborough street, Mrs. Condon was graduated from Lasell Junior College in 1933.

"The Boys Are Coming Home"—Quite a number of our young people who work "across Channel" for the employment which they failed to find at home, arrived here on holiday during the past few weeks. Judging by appearances their stay in the home of the Saxon "hereditary enemy" "le perfidus Albion," etc., agreed with them. Many of them expressed themselves very well pleased with the way they were getting on, but of course they were delighted to get a whiff of the native air, at Moll Goggin's Corner and along the Strand. One young man told your correspondent that he had been employed in a big Engineering Works since his arrival and was making very satisfactory progress. This he ascribed to the fact that for a couple of sessions he attended regularly the motor Engineering and mechanical Drawing Classes at the Youghal Technical School, where he got a splendid training in just the very subjects that he required. Not so very long ago during the discussion on the pros and cons of Technical Education, one perfervid patriot objected that they were only training the youth for the benefit of foreign countries! Let anybody and everybody say what they think fit against it, but many of our young people have gone, are going and will go, willingly, across Channel in search of livelihood. If they go untrained—the boys in practical subjects, the girls in domestic science, etc. they are condemned beforehand to mere "brewers of wood and drawers of water." Therefore, it is up to our growing up youth to fit and prepare themselves for the battle of life, at home or abroad, by taking advantage of the opportunities offered them by the Technical Schools scattered all over the land.

CO. WATERFORD LAND SETTLEMENT ASSOCIATION

Dr. M. Casey, presided at the annual delegate meeting held at Dungarvan. The following Branches were represented:—Dungarvan, Ballylameela, Kilgobnet, Modeligo, Ballyduff Lower, Portlaw, Coligan, Cappoquin, Grange, Stradbally, Tramore, Touraneau. A very interesting report covering the activities of this Association for the past year giving details of Estates which were divided and others recommended to the L.L.C. for division, etc.

Matters dealing with finances were submitted by the Secretary and were unanimously approved. The outgoing officers were re-elected for the coming year. Grave dissatisfaction was expressed by all Branch Secretaries at the miserable amount of land divided in this County during the past year by the Land Commission.

This Association intends to use all the means at its disposal to see that the Government set up to its policy of the land for the people. As the result of the non-activity of the L.L.C. it was decided to send a representative deputation accompanied by T.D.'s to interview the Minister for Lands on the matter.

Resolutions were passed and important discussions took place including the grave destruction done by the rabbit pest and some steps must be taken by the Government to deal with same.

Boxer's Financial Troubles—Primo Camera has been refused his discharge in bankruptcy by the U.S. Federal court, due to the 15,000 dollar (£3,000) breach of promise judgment against him on behalf of Miss Emelia Termini a London waitress.

ADVICE FROM WELL-KNOWN BUSINESS MEN. "Cheap goods are always the dearest in the end," has always been the motto of Harpur Bros., Waterford. "We believe in giving value for money because we are very largely dependent upon what people say about our goods to increase our business, and people must appreciate our 'square deal' methods because our hardware and seed business has grown to be one of the largest in the South of Ireland. We buy a sound article that will give good service, sell it to the public at a reasonable legitimate profit, and everybody is satisfied."

IMPORTANT NOTICE. We desire to announce that we have just installed UP-TO-DATE WOOD WORKING MACHINERY. YOUGHAL

Present—Mrs. P.C., Chairman. Fower, J. Daly, Whelan, R.C., Forrest.

At the meeting Mr. Power protected state. It was decided erecting a chair Ship to Green's.

Letter From Mr. J. E. Fanning he was making the collection of the collector (the collector) people, Mr. P. a gentleman without being a same man owned.

He (the collector) and all he had of that amount, those four people being summoned. Strange those that they were therefore no treatments. Re Refr pressing any of the weekly ten hands of the C. wise.

P.S.—There in the Town. Mr. Power—next meeting, The Chairman here at last going to waste Mr. Power—

Two applications mission to extend castle.

Mr. Power—to see building. The Chairman out to the Strand. One applicant the other the submit a plan of.

Relief The Town Sales for the expense for the relief of ing to £1,490. On the proposal Clerk was directed to the Location at once. Mr. Power—the scheme to be change as usual. The Clerk—

The Water Co. ing to the annual there was a water supply. prevent the wash. During the started that which perfect order the be badly corroded. The Clerk said understood when about 16,000 vis end, and that the both crowded at.

A report was of the Heat was no a diagram. After a short to leave the future and to any consumers to.

The Gas Co. for Sunday week. The application Manager for r.

Mr. Savage's ing of the Lease question of the of the towns by travelling shows that if those two allowed develop of the towns and activities of line. In the circumst decided to take object of devising such an understand all the national Irish towns had of it would be of their country out. He stated every possible station in their. This was second passed unanimous.

At exceptionally keen prices and in any quantity. Those applying for grants for the erection or repairs of houses should consult us. Composite Hay Barns Supplied and Erected. Also COFFINS of highest quality and finish at comparatively low Prices. O'MAHONEY BROS., Bridge Street, Dungarvan.

Get in touch with us for the best materials, the active & durable. The gut is particle books are made Harpurs have on every fly is. These very high opportunity for post free. Wholesale Fishing for.

YOUGHAL URBAN COUNCIL

Present—Messrs. P. J. O'Gorman, P.C., Chairman, E. D. Condon, R. Power, J. Daly, B.S., R. Savage, J. Whelan, R. C. Farrell, Vice-Chairman; J. Forrest.

The Upper Quays

At the meeting of the Harbour Board, Mr. Power called attention to the unprotected state of the Upper Quays. It was decided to get an estimate for erecting a chain railing, from the Double Slip to Green's Quay.

Letter From The Rate Collector

Mr. J. E. Farrell, Collector, wrote saying he was more than surprised on reading the account in the "Examiner," re the collection of rates, etc., and that he (the collector) had victimised certain people. Mr. Power must have in mind a gentleman who never paid his rates without being pressed. At present the same man owed 2 years rates on one valuation. The proof of the whole matter lay in the collection for the year 1936-'37. He (the collector) collected £4,500 7s. 2d. and all he had to issue for the collection of that amount were four summonses and those four people never paid without being summoned.

Strange those people never complained that they were penalised. There was therefore no truth in Mr. Power's statements. Re Rents, he had no necessity for pressing any of the Corporation Tenants. The weekly tenants were solely in the hands of the Council to press or otherwise.

P.S.—There are over 1,500 Ratepayers in the Town.

Mr. Power—Invite Mr. Farrell to the next meeting, or let the matter drop.

The Chairman—We had a long discussion here at last meeting and we are not going to waste any more time.

Mr. Power—Right you are.

Bungalows On Strand

Two applications were received for permission to extend bungalows at Claycastle.

Mr. Power—A good sign of the times to see building going on.

The Chairman—We'll all have to go out to the Strand soon (laughter). One application was granted, and in the other the applicant was called on to submit a plan of the proposed extension.

Relief Grant Work

The Town Surveyor submitted proposals for the expenditure of the latest grant for the relief of unemployment, amounting to £1,400.

On the proposition of Mr. Forrest, the Clerk was directed to submit the proposals to the Local Government for sanction at once.

Mr. Power—Are the men who work in the scheme to come from the Labour Exchange as usual?

The Clerk—Yes.

Water Supply

The Water Curator, reported that owing to the unusually large influx of visitors there was a very big draw on the water supply. Steps should be taken to prevent the waste which was going on.

During the ensuing discussion it was stated that while the new 8" main was in perfect order the original 6" main must be badly corroded.

The Clerk said the situation would be understood when it was considered that about 16,000 visitors arrived for the weekend, and that the town and strand were both crowded at present.

A report was read from the caretaker of the Heal Works at Boula that there was no shortage of water in the river.

After a short discussion it was decided to have the 6" main scraped in the near future and to take proceedings against any consumers found wasting water.

Gas Stokers

The Gas stokers applied for extra pay for Sunday work. The application was referred to the Gas Manager for report.

Co-Operative Etc.

Mr. Savage said that at the last meeting of the Leaseholders Association, the question of the injury done to the trade of the towns by Co-Operative Stores and travelling shops was considered. He said that if these two methods of business were allowed develop it would mean the end of the towns and the concentration of the activities of the country in a few cities.

In the circumstances the Association had decided to take the matter up with the object of devising some means to prevent such an undesirable state of things. In all the national struggles of the past the Irish towns had done more than their part and it would be a great blow to the future of their country if they were to be wiped out. He therefore proposed that they give every possible support to the Association in their efforts.

This was seconded by Mr. Whelan, and passed unanimously.

SUPERIOR TROUT FLIES

Get in touch with Harpur Bros., Waterford for Superior Trout Flies. All flies are hand-tied from carefully selected materials; the wings are matched and give a deceptively lifelike appearance. The gut is particularly fine drawn. The books are made of the finest steel. Harpurs have over 200 varieties in stock and every fly is guaranteed true to name. These very high-grade flies are a snap opportunity for anglers at 2/- a dozen post free. Address: Harpur Bros., Wholesale Fishing Tackle Dept., Waterford.

YOUGHAL DISTRICT COURT.

Before Mr. G. P. Farrell, D.J.

Gaming Charge

Mr. George Barker, was charged with "being the occupier and having the use of a place at Knockaverry, Youghal and having a booth or tent therein, did open and keep and use the same for the purpose of unlawful gaming being carried on therein to wit a spinner." Superintendent Kelly, Midleton, prosecuting said that Mr. Keane, sole, for the defence, was unable to attend that day and asked for an adjournment to next Court. He had no objection. The case was accordingly adjourned.

Exemption Order

Mr. W. J. Barry, solr., Midleton, applied on behalf of Miss Josephine Daly, Vintner, Cloyne, for an Exemption Order in respect of her premises for the morning of August 23rd hours 6 to 10 a.m.

Mr. Barry said that formerly a fair was held at Cloyne, and an energetic Committee was formed for the object of reviving it.

There being no objection the application was granted.

School Attendance Cases

Guard Ceator, charged a labourer with the non-attendance of his child at school. Complainant having given evidence.

defendant stated that his wife was an invalid and the child, the only girl, was kept at home to look after her mother and the house. He produced a doctor's certificate as to his wife's state of health.

The Justice said that was a legitimate excuse, but defendant should try and send the child to school till she was 14.

Defendant promising to do his best, the case was adjourned to the first Court in October.

IRISH BRIGADE PRESENTATION

A public meeting was held in the Town Hall on Tuesday night, 3rd August, for the purpose of making a presentation to the local members of the Irish Brigade who recently returned from Spain.

Mr. J. N. R. Macnamara, U.D.C., solr., said it gave him great pleasure to make that presentation which was a token of appreciation for the gallant young Youghal men who had left their native town in the depth of winter to fight in the noblest of wars in Spain. Those lads were a credit to their town and he and those associated with him felt proud of them. He trusted they would like the engraved silver medals they were getting, which would be interesting souvenirs of their campaign. The balance of the fund collected would be allocated amongst them. Two of their comrades John and Thomas Hannan, who were unable to attend had received their medals, but wished their shares in the fund to be divided amongst their 7 comrades, a very generous action on their part.

Mr. Macnamara then presented the medals to the following:—Gerald Fitzgerald, Thomas Bland, Wm. Murphy, Wm. Coakley, Thomas McGrath, Wm. Norris and John Collins.

Mr. Macnamara then shook hands with each and congratulated them on their splendid action.

Mr. V. O'Donoghue said he was proud to be associated with the compliment paid to the brave Youghal boys who fought in Spain. He wished them the luck they deserved. They were a credit to their Faith and their country.

Mr. M. Barrett, wished to add his personal congratulations to those splendid lads. They well deserved the compliment being paid them.

Mr. M. Cashman, U.D.C., as an old comrade of the Youghal Volunteers said he was very proud of them. They deserved all that had been said of them.

Mr. F. J. Foley said it gave him great pleasure to support a cause worthy of every Catholic Irishman. It was good to know that the Irish Brigade was represented by nine Youghal men who offered their very lives to fight with their fellow Catholics of Spain against the materialistic doctrine of Communism. Spain had been a good friend to Ireland in her day of persecution and it was only right that they should now help the suffering Catholics of Spain.

Concluding, he said he was delighted to see them home safe and sound after their dangerous campaign.

Mr. Wm. Coakley, replying on behalf of the Volunteers, said he and his comrades were deeply grateful for that evening's presentation. They were proud to fight with General Franco's forces, which were steadily winning.

The medals were inscribed "Irish Brigade, Youghal, 1937," with the recipient's name.

CARRICK-ON-SUIR URBAN COUNCIL

The Council decided to issue posters and hand bills warning residents of the town about wasting water. It was decided to prosecute every person found wasting water.

The Council asked Mr. O'Reilly, C. O'Connell, contractor, for the building of 107 houses to sign his bond within the week and get the work of building the houses going.

This decision was come to on the proposition of Mr. Barry, seconded by Mr. Woods.

The Chairman said he thought Mr. O'Reilly was doing everything possible to expedite the housing scheme.

It was reported that the County M.O.H., the Engineer and the S.S.O., had carried out an extensive survey of housing in the town and had condemned a large number of houses.

FIANNA FAIL IN BALLYLANEEN

Large And Representative Public Meeting Addressed by Mr. M. Morrissey, T.D.

A most successful and enthusiastic public meeting, under the auspices of the local Cumann, Fianna Fail, was held at Ballylaneen on Sunday last, after the late Mass in St. Anne's Church there.

Mr. P. Kiely, who presided, said he was glad to see such a large and representative gathering present to extend a cordial cord mile fails to the only County Waterford born T.D., in the Government ranks. It was with feelings of pardonable pride that he (speaker) mentioned the fact that Mr. Morrissey had received a splendid measure of support from the farmers and labourers of Ballylaneen and Stradbally at the General Election (cheers).

Continuing, the Chairman said that although this was the first opportunity Mr. Morrissey had of coming amongst them he was already actively interested in advancing a number of schemes sponsored by the local Cumann and calculated to benefit the people of the community as a whole (cheers). "And now" concluded the Chairman, "I have great pleasure in introducing you to the man who will always gladly strive his utmost to further to the point of successful achievement any project having for its object the general welfare of all, irrespective of politics—the man is our worthy T.D., Mr. Michael Morrissey, who will now address you, my friends" (prolonged cheering).

Mr. Morrissey, who was given a great ovation, said he left Dungarvan that morning under the impression that he was coming to Ballylaneen to attend a meeting of the local Cumann. He didn't think a public meeting was to be held. "Therefore," he went on, "you can well imagine what a surprise—a truly delightful surprise, let me say—it is to find myself now facing such a magnificent assembly of the farmers and workers of this parish. During the Election campaign it was impossible to visit the different districts, the time being so short. I am perfectly satisfied that the people of Ballylaneen are behind Fianna Fail to a man (cheers). I know that, personally, I got a good vote here (A voice: "And you will again," Cheers). From the bottom of my heart I thank you, and also the energetic members of the local Cumann, for the fine measure of support you all so readily and so willingly accorded at the Election. Proceeding, Mr. Morrissey said that, despite anything uttered to the contrary, the result of the recent election showed clearly a renewal of confidence in President de Valera and in the Fianna Fail policy.

"Despite a juggling of financial figures on the part of the 'Irish Independent,' despite unsavoury whisperings and lying propaganda, the Fianna Fail Government is the chosen one of the Irish people for another five years," said Mr. Morrissey, amidst cheers. "President de Valera has made it very clear that he will not be deviated from his policy by any opposition—be it from the right or from the left. The only promise made by the Fianna Fail standard-bearers during the election was that they would faithfully pursue the programme and policy laid down in 1927. We want to make not alone the 26 counties but the 32 counties of Ireland, Nationally and economically free."

Mr. Morrissey went on: "Some people think there will be another General Election soon. I don't believe there will be, but should it happen to take place it certainly will benefit Fianna Fail. We have had 20 years experience of another Party in power, and we know that that Party governed but for a section of the people (several voices in unison: "Hear, hear"). If the people want any benefits from the policy of Fianna Fail, they will get my support and the support of the Government. Here in Ballylaneen you have, if these are feasible they will have my support. I now ask the people of the district irrespective of politics, to get together and put those schemes forward. Remember that that push of those feasible projects must come from you people as well as from me (Hear, hear). During the election campaign we heard from the Opposition—the Fine Gael Party—by pamphlet and otherwise, that the increased cost of living was due to Fianna Fail. But the Opposition never told us how they were going to reduce it. I need scarcely remind you that 120 hour mills were closed down during the Cosgrain regime. Fianna Fail could reduce the cost of living. Yes, if our Government allowed boots, clothes, bacon, flour, etc., duty free into this country from foreign parts. If that were done, the establishment of leather and clothing factories, of beet and wheat schemes, etc., would be a labour in vain. By giving a free market here say to Japan, where they pay slave wages, how could we ourselves—our cent boys and girls—get a living in the country?" (cheers). Remarking that he had another meeting to attend that day, Mr. Morrissey concluded his address by thanking the people of Ballylaneen for the wonderful reception they had given him, and he promised to pay them another visit soon again.

Proposing a vote of thanks to Mr. Morrissey, the Chairman said he had broken a record by reason of the fact that he was the first T.D., to have addressed a public meeting in their parish after a General Election.

Mr. Michael Keane seconded the vote, which was passed with acclamation, and Mr. Morrissey suitably acknowledged.

The Committee of the local Cumann subsequently furnished Mr. Morrissey with full particulars of certain schemes they were anxious to have carried through and which they assured him would be a boon to the district, and he promised to attend to these matters without delay.

TALLOW NEWS.

The Sewerage Scheme—Considerable progress has been made with the first section of the Sewerage Scheme, and Messrs. O'Mahoney and Sons, Cork, the contractors are to be complimented on the excellence of the work already completed.

It is regretted however, that much delay in the progress of the contract has been occasioned by the fact of the sides of the cutting falling in as the opening approached the river, piling operations having to be adopted, to enable the work to proceed.

Unfortunately a spring was also encountered giving off an enormous supply of water, which flooded out the drain and the contractors had to employ an engine driven pump to pump out the water, and this has enabled the work to be continued, but has caused considerable delay and necessitated the laying off a large number of the workmen employed.

However, owing to the recent spell of fine weather, most of these have been absorbed by the local farmers at haymaking, and consequently the necessity did not arise for them to register once more at the unemployment exchange.

WATERFORD MENTAL HOSPITAL

EXTRA LAND REQUIRED

The escape of a patient from the Institution on the 17th ult., and an assault by a male patient on an attendant, were referred to by Dr. Brennan, Acting R.M.S. in his report to the monthly meeting of the Committee of Management of the Waterford Mental Hospital today.

"The general health of the inmates has been good since your last monthly meeting," the report read. "Supplies have been satisfactory. A male patient escaped while on parole to town on the 17th ult., he was returned by the Civil Guards on the 27th ult. A male attendant had his left wrist injured owing to an unexpected assault by a male patient and was off duty for three days."

Acquiring Extra Land

The question of acquiring extra land was mentioned by Commissioner Moynihan, Visiting Governor for the month, in his report. "The committee has been for a long time," he said, "considering the question of acquiring extra lands. This is absolutely necessary and urgent. There are 44 acres of land used for agricultural purposes, of which 40 are filled. Extra land would appear to be necessary if the crops are to be rotated. Also with the increased number of patients expected from Dungarvan, more tillage will be required. The farm of Murphy's adjoining, which was the subject of negotiation some time ago, appears to be the most suitable. It contains 44 acres, and the price he was prepared to sell at was £3,500. This is probably far too much, but perhaps, it might be possible to arrange a price by arbitration.

A deputation was appointed to wait on Mr. Murphy for the purpose of opening negotiations for the purchase of his farm.

During the course of the discussion which took place relevant to the urgency existing for extra land, Mr. Commissioner Moynihan said they had the smallest farm of any institution in Ireland, while the numbers of their patients were above the average.

Mr. Commissioner Meghen, expressed the opinion that the amount of land which they had was remarkably small for an institution of the kind.

BOUNTY ON PIG PRODUCTS

The Department of Agriculture announced that a bounty on Pig Products exported on and after Monday next 16th inst. to countries other than the United States of America will be payable at the following rates until further notice:—Bacon, Cured Hams and other Cured Pigs 16/- per cwt. Pork 12/- per cwt. Offals 5/- per cwt.

Payment on the bounty is contingent on compliance with the regulations.

DEATH OF MR. P. A. QUIRKE, CARRICK-ON-SUIR

The death occurred on Tuesday night of Mr. Patrick A. Quirke, Main Street, Carrick-on-Suir. Deceased had been for about 16 years a very popular and efficient official of the National Bank. He served in Dublin, Cork and the Midlands. He was a young man of rare gifts of intellect and an enthusiastic book collector and a marvelous reader. He took an active part in the work of the St. Vincent de Paul Society and all the Catholic charitable organisations in the town in which he had been stationed. Deceased was eldest son of the late Mr. Andrew F. Quirke, Auctioneer and rate collector, Carrick-on-Suir and cousin of Mr. Michael J. Quirke, solr., Carrick-on-Suir and Mr. Walter Walsh (Hearne and Co.), Waterford.

There was a large attendance at the funeral to Fingheen near Carrick-on-Suir after Office and High Mass.

HIGHER PRICE FOR COAL

With coal prices rising householders must seek ways of reducing the amount of coal that they burn. Some people let their fires go out and thereby achieve economy. But this plan is inconvenient and very often it is not only inconvenient but uncomfortable. A much wiser plan is to use a coal-saving appliance that will give you the heat to which you are accustomed and yet burn much less coal. See the new Coal-saving Ranges or modern Register Grates at Harpur Bros., when you are next in Waterford. It is something being made to save up their cost by the saving in fuel bills.
