## JINJA INTERNATIONAL CONVENTION 2025

Speakers: fivefold ministry

Dates: august 29th – 31<sup>st</sup> 2025

### Inspiration

62 Now, we find that rain which brings forth fruit upon the earth, "It's born," as the poet said, "in the fields of thunder, in a ragged, jagged skies." But if we didn't have the thunder and the ragged, jagged skies, the little distilled drop of rain that's been lifted from the seas and distilled from the salt, it would not be born. It takes that lightning, thunder blasts; ragged, rugged, fearful thing, to bring forth the soft petal drops of water. It takes pain to bring forth birth. It takes dying. And as the clouds die, rain is born, because rain is a part of that cloud. One has to cease so the other one can exist.
