Ref.: CL400 **Reducing agent**

- ✓ Antioxidant reducing agent (sodium dithionite / sodium hydrosulfite)
- ✓ Ideal for eliminating persistent colored stains, such as dye residue, color migration, mold, and rust
- ✓ Restores grayed whites
- ✓ Whitens yellowed textiles, including those with chlorine residues
- ✓ With careful application, it can be suitable for delicate fibers
- ✓ For optimal results, a high bath temperature is recommended

As required	30-60°C	3-5 (in water)	Fragrance free
> 99%		<5KG ADR	

DOSING SYSTEMS

Control your consumption with our advanced dosing systems, in collaboration with our partner DOSIPER

SMART MONO-MACHINE DOSING

Smart dosing systems for a single washing machine

TRITON

Ref.: DS.TRI4.CT **Smart dosing unit 20 l/h for compact washers**

- ✓ Peristaltic dosing unit for 4 pumps 20 l/h or 333 ml/min
- ✓ Durable bicomposite squeeze tubing
- ✓ Quick BNC connectors for suction lances
- ✓ **Integrated level control alarm** (no external alarm required) enabling remote control of product levels
- ✓ Programmable with LavNet and LavNetRemote (via Wi-Fi)
- ✓ Extensive statistics collection; automatic alarm notifications
- ✓ Adaptable for 1 to 6 incoming signals
- ✓ Modular: flush, display, formula selector, Wi-Fi

COMPLEMENTARY SYSTEMS

AL.CONNECT

An innovative product by Concord Textile

Ref.: DS.ALV2.CONNECT **Connected level control**

An optimal solution for self-service laundries and small enterprises, designed to effectively prevent product shortages. **Receive an email notification in the event of a product shortage !**

- ✓ Level control independent of any dispensing system
- ✓ Up to 4 products
- ✓ Wi-Fi connectivity through LavNet Remote (no subscription necessary)
- ✓ Optimal for self-service laundries
- ✓ Rapid installation
- ✓ Compatible with BNC (quick-connect) suction lances

Never run out of your product !

* optional

SMART MULTI-MACHINE DOSING

Smart dosing systems for multiple washing machines

MULTILAV PRIME

Ref.: DS.MLAV#P#W.EL **Centralized 90 l/h system for 2 to 8 washing machines**

- ✓ Peristaltic dosing system for 2 to 8 washers and 4 to 8 products
- ✓ Durable bi-composite hoses
- ✓ Programmable with LavNet and LavNetRemote (via Wi-Fi)
- ✓ Comprehensive statistics collection with automatic alarm notifications
- ✓ Adaptable for 1 to 6 incoming signals
- ✓ Electric or pneumatic valves

Ideal for medium-sized laundries

PROGRAMS

ACCESSORIES FOR DOSING SYSTEMS

Accessories to enhance your dosing system

LOKI SUCTION LANCES

Ref.: CINT#. #.BNC

Suction lances equipped with a level probe

- ✓ Suction lance featuring an integrated level probe
- ✓ Available with 1 to 4 outlets (for 1 to 4 washers)
- ✓ Offered in three lengths: 45 cm (for cans), 90 cm (for 60L drums), and 120 cm (for 220L drums)
- ✓ Optional BNC connectors for rapid installation

LEVEL CONTROL ALARM

Ref.: DS.ALV8.BNC

Level alarm for LOKI lances

- ✓ Independent alarm products 1 to 8 for LOKI lances
- ✓ BNC connectors for rapid installation (optional)
- ✓ Integration with the dispenser for email notification dispatch (SERIAL version, optional).

SQUEEZE TUBING

Ref.: TB.#.BICO - TB.#.SANT

Squeeze tubing for peristaltic pumps

- ✓ Squeeze tubes for Triton/DDLAV/Ecodot (20l/h), Medusa (40l/h), and Coral (90l/h) dosing units
- ✓ Santoprene or bicomposite (Triton, Medusa, Coral post-2022)
- ✓ Available by the meter

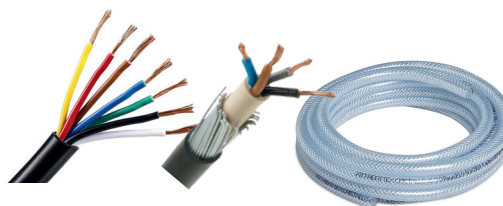

Squeeze tubings are also available for Seko/Injecta, Brightwell, Hydrosystems, and other dosing systems

...AS WELL AS

Accessories for installations

- ✓ 7-core signal cables
- ✓ 4-core armored cables for communication boxes
- ✓ Flexible PVC pipes (10/15mm and 12/18mm)
- ✓ And many more useful items

TRAINING CENTER

Master textile care with our customized training programs

Expert training for professionals in textile care

Our expert trainers lead you through practical training courses aimed at optimizing the use of your tools and acquiring new essential skills

DELICATE TEXTILES

DRY / WET CLEANERS - HOTELS - FASHION

Master the care of delicate textile through our customized training programs :
