

10W RECHARGEABLE HEAD LIGHT

OPERATING INSTRUCTIONS

Read and follow all warnings and instructions to avoid personal injury or property damage.

INSTRUCTIONS

1. Charging

- Connect the USB cable into charging socket, which is located on the torch
- Connect the charger to a power supply.
- The charging indicator will illuminate to show the charging has started.

NOTE: The charging indicator will turn green when the headlight is fully charged.

- Disconnect the charger from the headlight when it has been charged for a sufficient time.

2. Operating the torch

CAUTION: Never shine the LED light directly into your or anyone else's eyes.

- Choose the desired working mode with switch: high-low-flash.
- The headlight beam can be enlarged or reduced for optimal focus.
- The headlight can be adjusted 90° angle for different direction.

SAFETY WARNINGS

- Do not leave the LED headlight unattended.
- Do not shine directly into anyone's eyes
- Basic safety precautions should be followed to reduce risk of fire, electric shock, personal injury and material damage.
- Avoid bumps and dropping or placing light near over-heated objects.
- Keep away from acid and alkaline objects.
- Battery must be recycled or disposed of properly.

ENVIRONMENTAL INFORMATION:

The device should not be discarded in the normal household waste under any circumstances. Dispose of the device via an authorized disposal center or your communal waste disposal facility. Observe the current applicable regulations. Contact your waste disposal facility in the event of any doubt. Dispose of all packaging materials via an environmentally friendly disposal facility. Used batteries and rechargeable batteries are special waste and must be disposed of in accordance with national regulations.

SPECIFICATIONS

Item No: 190562

Luminous flux :300lm/100lm

Batteries: 3.7V 4400mAh Lithium

Function: high-low-flash

Charging time:4-5hours

Working time:3-4hours

Weight:240g
