Denmark

1851 to 2003

© Alexander Barthel

Some notes on this album text

This album text encompasses all Danish stamps from 1851 up to and including 2003. They are organized chronologically by year and include definitive stamps, commemorative stamps, surcharge stamps, air post stamps, and ATM franking labels.

The issues of the definitive stamp series are presented together, sometimes separately if necessary due to print or paper variants, and arranged chronologically by the first year of issue. Danish definitive series, some of which have remained virtually unchanged in design for several decades, often exhibit variances in watermarks, printing techniques, or plate types, which are illustrated with supplementary images.

Between 1961 and 1968, many Danish stamps were printed on both regular and fluorescent paper, a factor also accounted for in the album text.

Individual stamps from souvenir sheet issues are also displayed. However, se-tenants from booklets or miniature sheets are generally excluded, as are perforation and paper variants of the issues from the early years and very rare color variations.

The BOB-section of this album text includes postage due stamps, official stamps, military/franchise stamps, postal ferry stamps, newspaper stamps, and stamps for the settlement of postal fees, along with brief explanations where necessary.

Stamp illustrations are kept in black and white and significantly reduced in size compared to the original stamps so as not to distract from the actual stamps in the collection. These settings can be easily adjusted using the AlbumEasy program.

For stamps with an identical design and denomination differing only in color, the color is specified for easier identification in black and white representation.

A few stamp boxes per issue are allocated for ATM franking labels, with the option to adjust the number based on individual preferences.

This English album text is designed for letter format. Adjustments to other formats (i.e. Scott International or Speciality, MINKUS, A4 or A3) can be easily made, but this may require adjustments to the page layout as well.

This album text is free of charge and intended solely for private use and modification. The copyright remains with the author. Commercial use, even with modification, is prohibited.

The album text has been carefully prepared, with apologies for any remaining errors or instances of awkward English phrasing, as English is not the author's native language.

Special stamps, introduced in 1907 for settling postage fees with newspaper and magazine publishers, were affixed to notification and settlement forms. Their use was discontinued on December 31, 1916, with the introduction of a simplified billing system.

Prior to 1924, postal charges for special services, like form completion and address writing, were settled in cash or by attaching stamps. In April 1923, special fee stamps were introduced for this purpose, affixed to the form and then canceled. However, starting in 1962, regular stamps replaced these fee stamps.

Postage Stamps (King Christian X, Overprint 'S P'

Starting in August 1917, all conscripts enlisted for the First World War were allocated a 5-Øre and a 10-Øre stamp weekly for their personal correspondence (both postcards and letters). These stamps were identified with 'SF' (soldier's stamp). This practice remained in effect until the conclusion of March 1919, coinciding with the demobilization of security forces following the end of the First World War.

1922/1930

Numerals with Wavy Lines (Typography), Overprint 'POSTFÆRGE'

1927/1930

Caravel (Typography), Overprint 'POSTFÆRGE'

After Danish Post assumed control of the Løgstør-Aggersund and Fanø-Esbjerg ferries, postage stamps with the POSTFÆRGE overprint became valid for parcel postage along these routes. Until mid-June 1919, these post ferry stamps could also be used to frank regular letters. The Løgstør-Aggersund ferry route ceased operations in June 1942 with the inauguration of the Aggersund Bridge. Subsequently, on May 1, 1977, the Fanø-Esbjerg ferry service was transferred to the Danish State Railroad, rendering the continued use of postal ferry stamps unnecessary."
