Notes on This Album Text

The first Danish Christmas seal was issued in 1904, marking the beginning of a global tradition. The idea came from Einar Holbøll, a Danish postal clerk who later became Postmaster. Moved by the plight of poor children during the holiday season, he proposed selling a special seal — placed alongside postage stamps — to raise funds for charitable purposes.

This concept led to the founding of the Danish Christmas Seal Foundation (Julemærkefonden), which initially focused on the fight against tuberculosis. Over time, its mission expanded to support vulnerable and socially disadvantaged children. The foundation established sanatoriums and later Christmas Seal Homes, where children receive care, stability, and support.

This album presents all Danish Christmas seals issued from 1904 through 1990, along with annual reprints of earlier seals published since 1976. These reprints are arranged by their year of reissue and are marked accordingly on the reverse side, including the reissue year. Souvenir sheets — typically issued for philatelic exhibitions and featuring earlier designs — are also consistently included. The stamp booklets introduced in 1982 are likewise documented. However, the large annual sheets containing 50 seals each are not included; due to their size, they are best stored in separate sheet albums.

This version is formatted for A4 paper. Format settings can be adjusted in the AlbumEasy source code, which may require minor layout modifications.

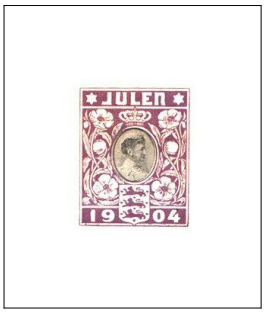

The text has been carefully compiled. Should any minor errors remain, they are entirely unintentional. Your patience and understanding are appreciated.
