Notes on This Album Text

This album presents all Danish Christmas seals issued from 1991 through 2010.

It directly and comprehensively continues the previous album covering the years 1904 to 1990. In addition to the traditional perforated seals, this volume includes the die-cut, self-adhesive seals that have been issued since 2009.

The album also documents reprints of earlier seals. Souvenir sheets — typically issued in connection with philatelic exhibitions and featuring classic designs — are consistently included. Stamp booklets — available in two versions since 2009 — are likewise covered.

The large annual sheets containing 50 seals each are not included in this album; due to their size, they are best kept in separate sheet albums. In contrast, the sheetlets with 10 self-adhesive seals, also issued since 2009, are included here. Se-tenants are documented when the design of individual seals forms a unified image only when arranged together.

This version is formatted for A4 paper. Format settings can be adjusted in the AlbumEasy source code if needed.

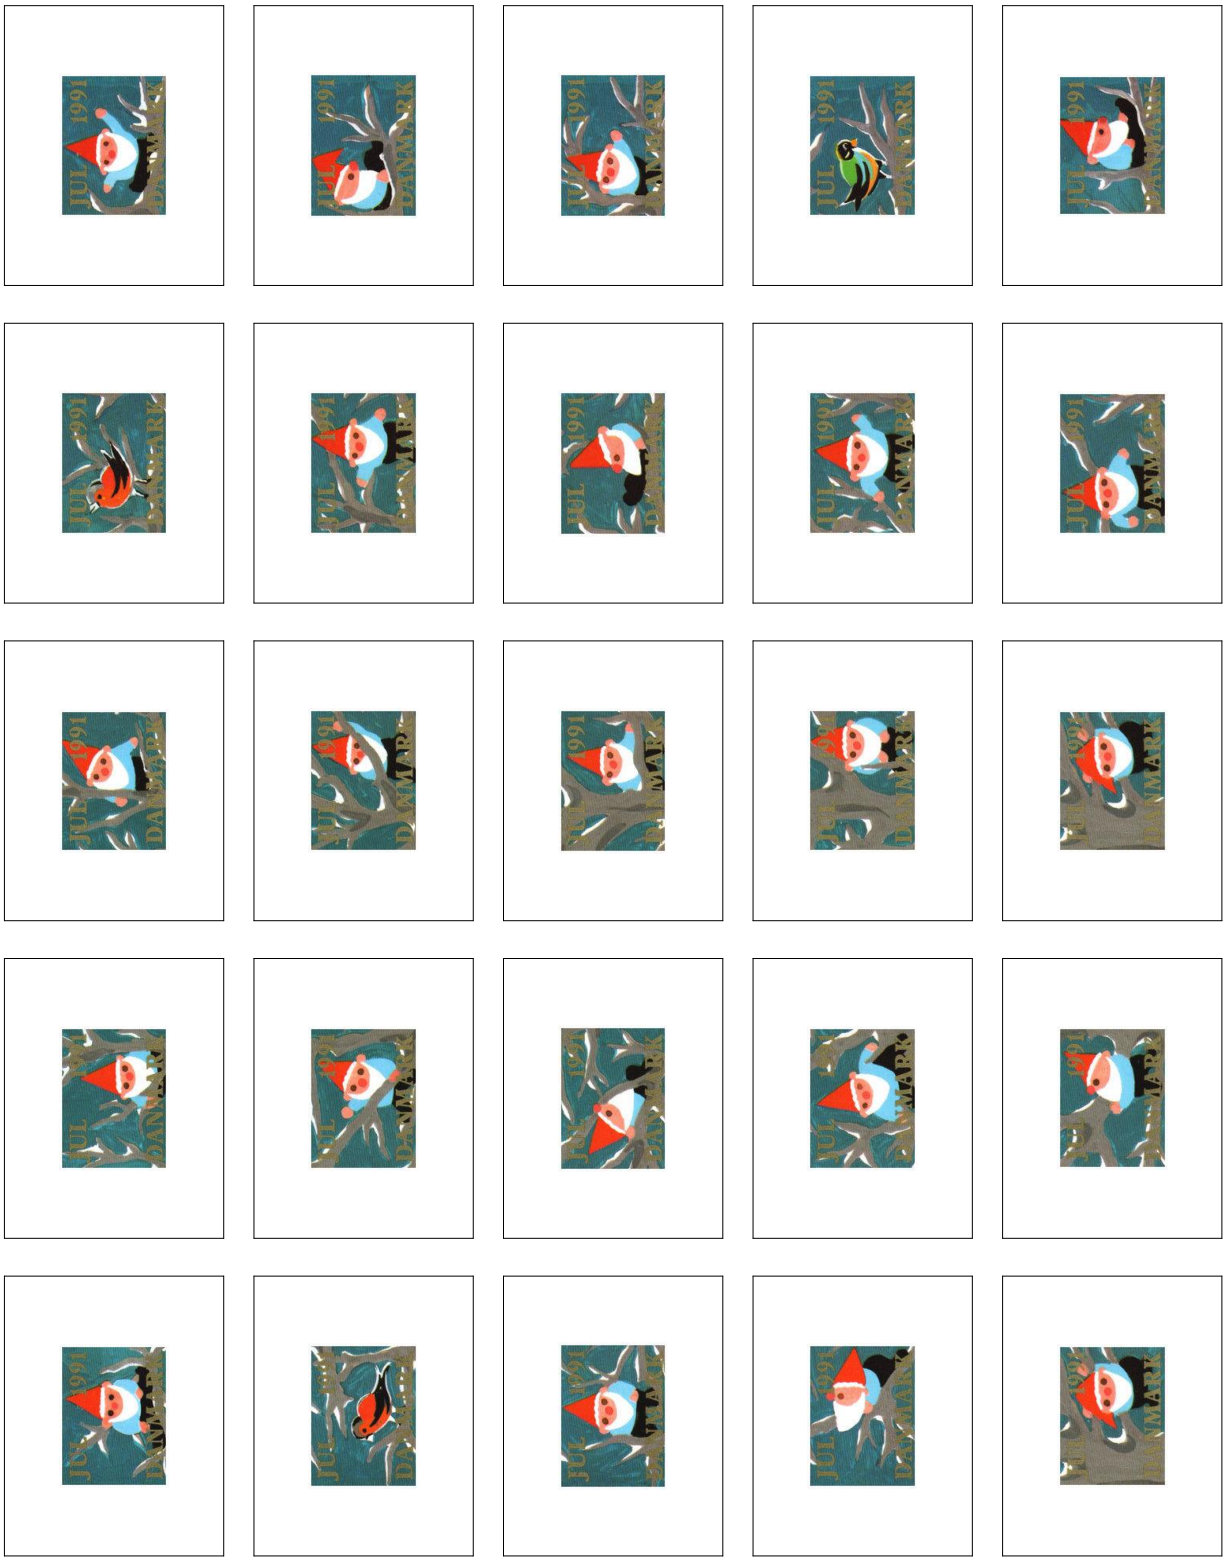

Every effort has been made to ensure the accuracy of this text. Any remaining errors are entirely unintentional, and your understanding is appreciated.
