Se-tenants

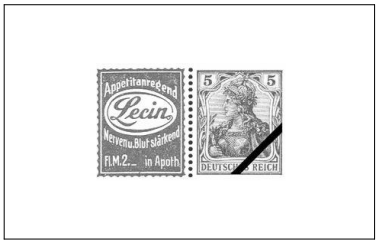

1911/1920

Germania, Booklet Panes 1 to 27

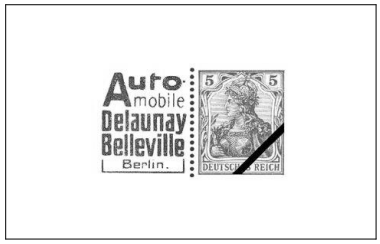

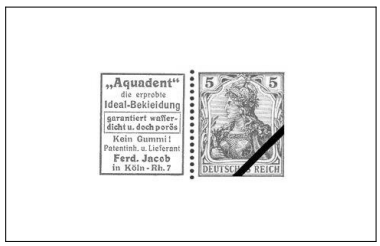

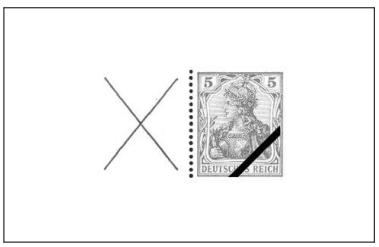

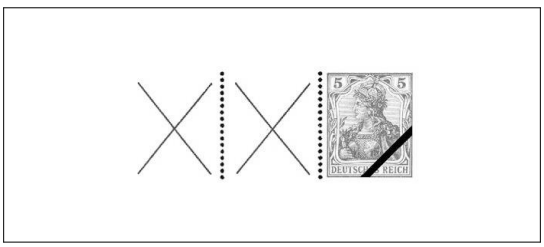

Most se-tenants of the German Empire come from booklets (i.e. from booklet panes) or are coil stamps, but some - especially those with gutters and tête-bêches - can only come from booklet sheets. For some issues, booklet sheets were not made available to the public, so there are no se-tenants with gutters or tête-bêches. Booklet sheets and booklet panes are referred to in this album text according to the Michel system.
