Posthorn, Markenheftchenbogen 1 und 2

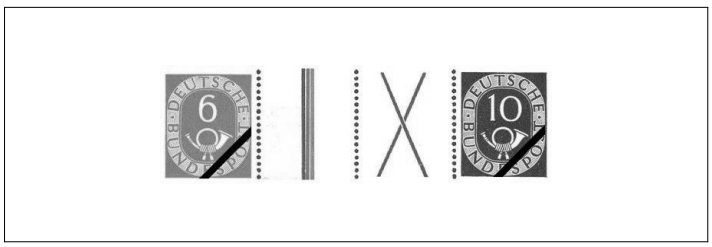

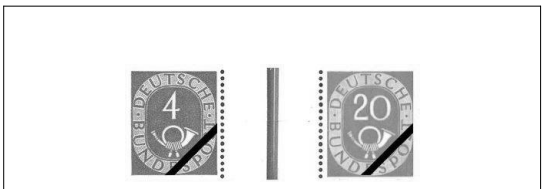

Die meisten dieser Zusammenducke stammen aus Markenheftchen (d. h. aus Heftchenblättern). Einige von ihnen - insbesondere diejenigen mit Zwischensteg oder Kehrdrucke - können allerdings nur aus Heftchenbögen stammen. Für die Ausgaben ab 1974 (Unfallverhütung) wurden keine Heftchenbögen mehr verfügbar gemacht, so dass in diesen Fällen keine Zwischensteg-Varianten oder Kehrdrucke vorhanden sind. Heftchenbögen und Heftchenblätter werden in diesem Albentext entsprechend der Michel-Systematik benannt.
