United States Back of Book

This album has been formatted for 8 1/2 x 11 inch paper.

This album file is derived from and expands on the USA Classic Back of Book Album created by Bill Weston.

This album file is free for non-commercial use only.

You are hereby given permission to copy, modify, or give this album file away in original or modified form subject to the following restrictions:

1. The origin of this album file or any derived works must not be misrepresented. In other words, you may not claim that you created it.

2. Modified versions must be marked as such.

3. This copyright notice may not be removed or altered.

The terms of this license also apply to any derived works such as PDF files or printed pages that may have been generated from this album file.

If you wish to make commercial use of this album, please request such permission via the contact page at:
https://www.thestampweb.com/contact

(c) 2025 Ronald Neubauer

Album Contents

This album contains many of the United States non-revenue Back of Book sections. If you are generating your own album using the AlbumEasy program, you may choose to omit one or more of these sections from your album. To do so, simply comment out the $INCLUDE statements that appear at the end of this main file for the sections that you wish to omit. Album Organization

This album is organized first by Back of Book section. The sections are sorted alphabetically by the prefix letter(s) used to denote that section in the Scott catalog. Within each section the stamps are generally arranged in Scott catalog number order (though the catalog numbers do not appear). Deviations from Scott catalog number ordering occur for such things as page aesthetics, grouping stamp formats (e.g. booklet panes), and keeping variant types together (e.g. Official Stamp Specimen variants and "Sepcimen" error variants). Optional Capabilities

If you are generating your own album and do not wish to have all of the Back of Book sections included in your album you can comment out the $INCLUDE statements that appear below this in the command file for those sections you wish to exclude.

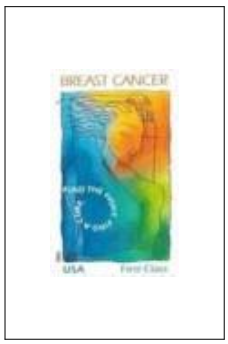

In addition to individual and paired stamps, this album includes booklet panes. If you are generating your own album using the AlbumEasy program you can exclude these stamps by commenting out the $DEFINE(BOOKLETPANES) statement below this in the command file.

It also includes coil stamps that have plate numbers. If you are generating your own album using the AlbumEasy program you can exclude these stamps by commenting out the $DEFINE(PLATENUMBERCOILS) line below this in the command file.

Baltimore & Ohio Telegraph Companies

The stamps of the Baltimore & Ohio Telegraph Companies were printed by different firms. The stamps were issued in booklet form and the firm name might or might not appear at the bottom of the stamp. The single stamp 1¢ images below depict examples with the imprint of the firm name. All other images of the Baltimore & Ohio Telegraph Companies are shown without the imprint portion of the stamp. Because the stamps printed by the American Bank Note Co. and A. Hoen & Co. are perforated the same the stamps may be indistinguishable unless it is the instance which includes the firm name imprint or it is a stamp printed by A. Hoen & Co. which includes the watermark. Horizontal pairs may include one stamp with an imprint and one without. Serial numbers can, of course, vary.
