Paragraph 2: What process did I take to answer the question?

- Divide Number

- Find prime numbers to divide

- Draw a diagram

- Backwards question

- Multiplying instead

Paragraph 3: What mathematical strategies did I use?

-Division

- Multiplication

 - Prime numbers

Introduction/Topic
Write the problem in your own words.
Make a prediction on what you think you may find.

-factorgrams
-Find out the factors
- Prediction- something to do with factors

Paragraph 4: What did I find?

- 1 ends up at the end

- Factors of numbers

- 2D, 2 prime factors

- 3D, 3 prime factors

- Example - diagram

Paragraph 5: Reflect or summarise what you have done and comment on how good your prediction was.

- When using factorgrams we found….

- Prediction – part of what we found
