

Cookie Count

Task 19 (modified) Guided Investigation

Mum made 12 cookies.

Mum said I could share all the cookies with my friends.

If 1 friend comes over, how many each can we have?

If 2 friends come over, how many each can we have?

If 3 friends come over, how many each can we have?

If 4 friends come over, how many each can we have?

If 5 friends come over, how many each can we have?

Record your thinking and working out.

What could happen if there were left overs?
