## FREE DIGITAL RESOURCES

The Mathematics Centre charter is to collect and retell stories of success which support the principle:  
*All students can learn to work like a mathematician in classrooms engineered to fascinate, captivate and absorb learners.*

### In this context **You Receive:**

The complete Mathematics Centre site to store on any computer or server whether or not the storage device is publicly available on the internet. Free Mathematics Centre is provided to be freely used, shared, reproduced or distributed in perpetuity.

This gift includes:

- Free DIY professional development support
- Unit planning, sequenced curriculum planning K-10, success stories and positive outcome research from Indigenous classrooms, assessment strategies, Maths At Home activities, detailed record of Mathematics Centre's contribution to mathematics education history, a range of published papers and extensive, interlinked teaching notes interweaving teaching craft and content for hundreds of activities and investigations
- Teacher and student resources including:
  - eTask Package
  - Working Mathematically with Infants
  - Maths With Attitude eManuals
  - Picture Puzzles
  - Professor Morris Puzzles
  - Menu Maths @ Café Conundrum
  - Poly Plug Game Pack
  - Maths300 EtuTE
  - Video: Working Mathematically Anthem

### **You Supply:**

- This order form
- 1 x new USB stick with at least 2 GB capacity
- postage paid, return addressed packaging

***We copy Free Mathematics Centre onto your stick as one folder with everything and return it to you as soon as possible.***

**Please supply Free Mathematics Centre: ... Yes/No**

- You copy Free Mathematics Centre (FMC) onto your computer(s) open the folder and follow the instructions in the READMEFIRST file. Then with just one click the home page to everything will open in your browser.

**Outside Australia? Please contact Doug.**

### Notes:
