Dear Mete,

I hope you have received the letter of Mrs. Götürk and I received another information from the Humboldt-Foundation: they are waiting for your formal application, research plan and a publication list with some detailed abstracts of your publications.

I wont be able to come to Turkey because of the general election in Britain where I have to do some research on political organizations of Pakistani immigrants. But I hope to see you in July here or in Ankara. You will get some further information and material on our ^{publication} ~~research~~ project in the middle of June.

Yours friendly,

J. Blaschke
