Prof. Dr. N. Lobkowitz
Geschwister-Sholl-Institut
Universitaet München

March 2, 1970

Dear Professor Lobkowitz,

I have known Mr. Mete Tunçay since 1954 when he enrolled in my courses of Constitutional Law. I had early observed in him a genuine scientific curiosity and a diligence to match it. After his graduation, I have been in his academic jury which gave him his Ph.D. in Political Science and also the one promoting him to associate professorship in Political Theory. I witnessed step by step in examinations, seminars and conferences how his capacity rose to the level of excellent intellectual synthesis. He developed himself as an open-minded and liberal scholar. His recent studies on political philosophy in general and Turkish political thinking in particular are widely acclaimed and accepted by enlightened public opinion.

I wholeheartedly and with no reservations recommend him to you. If given an opportunity to work in your Institute, I am proudly confident that he will more than fulfill our expectations.

Sincerely yours,

Prof. Bahri Savcı
