In the meantime you will have received the first part of the papers. The second part will be sent out by the end of August. The remaining papers will be distributed at the conference.

Please find enclosed the conference time table. As most of the papers will be sent out beforehand, we will be able to devote almost the whole time at our disposition to discussion.

Let me repeat once again that, during the first day of the meeting, we will concentrate on the functioning of the CI as international organization, and in particular on the relationship between its centre in Moscow and the various national sections and on the part played by the subsidiary and front organizations.

During the second day, the national Communist movements will be dealt with, with attention focused on the extent to which their development was determined by Comintern policies or by other factors.

Thus, you are not expected to summarize your paper but to contribute to the discussion on these questions. Note that the discussions should result in proposals regarding the course of future research.

I am looking forward to our meeting in October.

Yours sincerely,

Jürgen Rojahn
