Dear Sir,

The general secretariat and Jordanian working class convey you their protest on the voilation of the Trade Union rights and the anti-Union trial against the DISK and the death sentence they face.

We shululd be much grateful if you accept our call because we are Unionsts so we consider all the Unionsts in all over the world as brothers for us especially we have the right to practice our duties for the intrest of our working class and in democracy.

On behalf of the Jordanian working class and their leaders we ask you to interfere in accepting their just demands in dropping of charges against them, re-opening of the DISK and its affiliates and restore the trade union rights and democratic freedoms in Turkey.
