The World Federation of Trade Unions congratulates the members of the DISK and its affiliates on their great victory in the prolonged battle against arbitrary illegalisation of DISK and against the repression and long imprisonment of leaders and activists of DISK.

The WFTU reiterates its complete solidarity with the DISK in its struggle for unfettered trade union rights and democratic liberties in Turkey in the new situation and wish the DISK and its affiliates all success in their future work advancing the rights, interests and demands of the working people.
